

# Heritage Village

## EnterAction Station Details

**Teacher Led School Tours:** Wednesday, Thursday, and Friday mornings beginning at 10am. A typical class visit lasts 1 ½ to 2 hours or longer if you wish to bring a picnic lunch. All activities are teacher led.

**Plan Ahead:** Each Pop Into History can accommodate approximately 60 students. For the best experience, divide your class into small groups (10-15 students) with an adult leader.

**Reservations:** Let us help you customize your class field trip. Please call 727-582-2125 for your reservation.

**EnterAction Station Details:** Your class can “Pop into History – EnterAction History Fun” by visiting historic houses and participating in interactive stations created by teachers for teachers.

- **Pop Into History I:**

- **Plant Sumner House (1896):** Compare your home life to the past. Find daily family life examples featuring clothing, parlor pastimes, meal prep and service, occupations, pets, and much more.
- **Sponge Warehouse (circa 1930):** Find out all about sponging and use your imagination to travel to Pinellas peninsula by Sharpie Boat.
- **Sulphur Springs Depot (1924):** Load the citrus crates by dolly to the loading dock and tour the depot; find out about Morse code and tools of the rails.
- **Build a Cattle Pen:** Group cooperation is needed to build a temporary cattle pen for free-roaming cattle. Take a look in the sugar cane pot and the smoke house.

- **Pop Into History II**

- **McMullen Coachman Log Cabin (1852):** A wonderful example of early architecture, this homestead has plenty of scrubbing laundry for all the children to learn about pioneer life.
- **Harris School (1912 reproduction):** Touch and explore real artifacts and place in your own exhibit.
- **Low Barn (1912):** Oxen, cattle, and horses all played a part in helping to settle the Pinellas peninsula. Don't forget to tie up your horse, get your knot-know-how practice here.
- **Moore House (1879):** The Moore family house tells a story of early settlement and agriculture. Pump the water for cotton, crops, and vegetables.

**Please call 727-582-2472 to make your reservation or for any questions.**
