Packing Materials

Styrofoam or plastic packaging such as peanuts, polystyrene, or bubble wrap

1. **Reduce** waste by using items you have on hand instead of buying new packing materials. For example, use crumpled plastic grocery bags to pad items to be mailed or Christmas decorations to be stored.
2. **Reuse** packing materials. Designate an area to keep used boxes, bubble wrap, and packing peanuts so you will have them handy when needed for:
 - a) Mailing
 - b) Storage
 - c) Potting plants (use packing peanuts in the bottom of a large pot to promote drainage, save on potting soil, and add minimal weight)
3. **Drop off** at a mailing store for reuse. All of the stores listed below accept packing peanuts and bubble wrap. Only the stores marked “yes” accept molded Styrofoam (also called EPS or polystyrene) used to cushion items such as computers.

List is alphabetical by city and then store name.
