FLORIDA HOUSE OF REPRESENTATIVES

2014 SESSION SUMMARY

WILL WEATHERFORD, SPEAKER

AS AMENDED: MAY 22, 2014

the vehicle, as established in an official used car guide, DHSMV is required to declare the vehicle unrebuildable and issue a COD.

CS/CS/SB 754 revises the bright-line process for applying for a salvage certificate of title or certificate of destruction after a motor vehicle is declared a total loss. Specifically, the bill:

- defines a "late model vehicle" as an automobile 7 years or newer;
- raises the 80-percent COD threshold to 90 percent, and limits its application to late model vehicles with a value of at least \$7,500 just prior to sustaining the damage resulting in total loss;
- applies a narrative description requiring a certificate of destruction for all other vehicles when the vehicle is damaged, wrecked, or burned to the extent that the only residual value of the vehicle is as a source of parts or scrap metal, or when the vehicle comes into this state under a title or other ownership that indicates that the vehicle is non-repairable, junked, or for parts or dismantling only;
- requires DHSMV to provide a summary report regarding certificates of title for rebuilt vehicles including legislative recommendations to the Governor, President of the Senate, and the Speaker of the House of Representatives;
- revises and strengthens current airbag regulations by defining airbag, counterfeit airbag, and nonfunctional airbags;
- prohibits knowingly importing, manufacturing, offering for sale, or reinstalling fake or junk-filled airbag compartments; and
- provides additional fake or junk-filled airbag violations.

The bill will allow a greater number of salvage vehicles to be repaired, inspected, and returned to the road. It is expected to have an insignificant positive fiscal impact to both the General Revenue Fund (GR) and the Highway Safety Operating Trust Fund (HSOTF).

Subject to the Governor's veto powers, the effective date of this bill is July 1, 2014.

CS/HB 863 revises motor vehicle crash report access requirements. Currently, crash reports are confidential and exempt from public record disclosure requirements for a period of 60 days after the date they are filed. However, they are available to various entities, including but not limited to, the parties involved in the crash and their legal and insurance representatives, prosecutors, law enforcement, the Department of Transportation, and legitimate news media such as radio and television stations licensed by the Federal Communications Commission, qualified newspapers, and free newspapers of general circulation.

A person attempting to access a crash report within the 60-day period is required to:

- present a valid driver license or other photographic identification, proof of status, or identification that demonstrates his or her qualifications to access; and
- file a written sworn statement with the state or local agency in possession of the information stating that information from a crash report made confidential and exempt by this section will not be used for any commercial solicitation of accident victims or knowingly disclosed to any third party during the time that information remains confidential and exempt.

The bill requires a written sworn statement for each individual crash report requested.

The bill does not appear to have a fiscal impact to state or local governments.

Subject to the Governor's veto powers, the effective date of this bill is July 1, 2014.
