SUBJECT: Quarterly Investment Report for the Period Ended December 31, 2014

DATE: April 1, 2015

Attached is the Quarterly Investment Report for the period ended December 31, 2014.

The following is a summary of key points identified in the attached Quarterly Investment Report:

✓ Total Portfolio - book value (at quarter end)	\$927,632,147
✓ Securities - book value (at quarter end)	\$566,504,557
✓ Securities weighted average maturity (WAM) (at quarter end)	1.52 years
✓ Realized investment income for three months	\$ 695,102
✓ Yield on short-term portfolio	
○ Effective annual yield	0.16%
○ Benchmark (3-month T-Bill)	0.02%
✓ Yield on long-term portfolio	
○ Effective annual yield	0.54%
○ Benchmark (2-year T-Bill)	0.46%

Thank you, in advance, for your attention to the attached Quarterly Investment Report. If you have any questions, please contact me at 727-464-8300.

QUARTERLY
INVESTMENT REPORT

For the Period Ended
December 31, 2014

Prepared by Ken Burke
Clerk of the Circuit Court and Comptroller
Finance Division

Investment Policy

Section 218.415, Florida Statutes authorizes the governing body of a local government to adopt a written investment plan to govern investment activity. The Board of County Commissioners (Board) adopted Section 2-144 of the Pinellas County Code, Investment of Surplus Public Funds, establishing policies for investing all County surplus funds controlled by the Board. All investment activity is conducted in accordance with Code Section 2-144 and additional written policies and procedures.

The Pinellas County Board of County Commissioners investment policy and the ordinance can be found at <http://www.pinellasclerk.org/aspInclude2/ASPInclude.asp?pageName=investmentreports.htm>.

In accordance with the above laws and policies, the Clerk is required to submit a report on the performance of the County's investment portfolio quarterly and annually. In this Quarterly Investment Report, we show portfolio activity and performance, key economic indicators, portfolio summary and detail information and demonstrate compliance with policies.

Portfolio Activity Summary

During the quarter, the cyclical influx of tax revenues raised the portfolio's book value by \$164 million. The County's allocation in securities increased \$117 million. For the quarter, the long-term portfolio's effective yield increased to 0.54% as of December 31, 2014 compared to 0.49% as of September 30, 2014. Due to the current interest rate environment, securities continued to be purchased short on the yield curve. Portfolio activity for the quarter is shown on page 5 of this report. The long-term portfolio's weighted average maturity as of December 31, 2014 and September 30, 2014 was 1.52 years and 1.47 years, respectively.

Portfolio Performance

Total realized investment income for the quarter ended December 31, 2014 was \$695 thousand; up \$51 thousand from the prior quarter. The effective annual yield for the long-term portfolio was above its benchmark. The short-term portfolio's effective annual yield for the quarter was also above its benchmark. The County placed funds in public funds depository accounts, secured by Chapter 280, Florida Statutes, providing above-market returns.

Quarter-End Yields Over The Last Year					
<u>Individual Yields</u> (at quarter end)	<u>12/13</u>		<u>03/14</u>		<u>6/14</u>

Portfolio Overall	0.33		0.34		0.36
					0.39
					0.43
<u>Benchmarks</u>					
Short Term Funds:					
3-month US Treasury constant maturity (3-month average)	0.06		0.05		0.03
Long Term Funds:					
2-year US Treasury constant maturity (12-month average)	0.31		0.33		0.37
					0.41
					0.46

Treasury Yields

In comparison to the prior year, the 3 month and 5 year Treasury yields declined 3 and 10 basis points, while all other maturities rose from 2 to 32 basis points. As compared to last quarter, all maturities rose between 2 and 12 basis points with the exception of the 5 year maturity that declined 13 basis points. The historical Treasury yields at quarter-end for the last five quarters are presented below.

<i>Historical U.S. Treasury Yields over the Last Year</i>					
<u>Maturity</u>	<u>12/13</u>	<u>3/14</u>	<u>6/14</u>	<u>9/14</u>	<u>12/14</u>
3 Month	0.07 %	0.05 %	0.04 %	0.02 %	0.04 %
6 Month	0.10	0.07	0.07	0.03	0.12
1 Year	0.13	0.13	0.11	0.13	0.25
2 Year	0.38	0.44	0.47	0.58	0.67
3 Year	0.78	0.90	0.88	1.07	1.10
5 Year	1.75	1.73	1.62	1.78	1.65

The **composition** of the portfolio is diversified to control the risk of loss resulting from the over concentration of assets in a specific maturity, issuer, instrument, dealer or bank through which investments are bought and sold. Diversification strategies are reviewed and revised periodically as necessary to meet portfolio objectives.

The **maximum allowable maturity** for any investment in the portfolio is five years, however we make every effort to match investment maturities with known cash needs and anticipated cash flow requirements. Funds needed to meet current operating requirements have shorter maturities, generally less than twelve (12) months. Bond construction funds, bond fund reserves and other non-operating funds have terms appropriate to the need for funds and, if applicable, in accordance with debt covenants.

As shown on page 7, our portfolio is in **compliance** with all limitations on authorized investments shown in the Pinellas County Board of County Commissioners' investment policy.

Key Economic Indicators

Federal Funds Rate - The Federal Open Market Committee (FOMC) met on October 29th and December 17th voting to maintain its target range for the Federal Fund Rate at 0 to ¼ percent. This rate has not changed since the December 16, 2008 FOMC meeting.

The statement from the December 17th FOMC meeting indicated "Information received since the Federal Open Market Committee met in October suggests that economic activity is expanding at a moderate pace. Labor market conditions improved further, with solid job gains and a lower unemployment rate. On balance, a range of labor market indicators suggests that underutilization of labor resources continues to diminish. Household spending is rising moderately and business fixed investment is advancing, while the recovery in the housing sector remains slow. Inflation has continued to run below the Committee's longer-run objective, partly reflecting declines in energy prices. Market-based measures of inflation compensation have declined somewhat further; survey-based measures of longer-term inflation expectations have remained stable."

"Consistent with its statutory mandate, the Committee seeks to foster maximum employment and price stability. The Committee expects that, with appropriate policy accommodation, economic activity will expand at a moderate pace, with labor market indicators moving toward levels the Committee judges consistent with its dual mandate. The Committee sees the risks to the outlook for the economic activity and the labor market as nearly balanced. The Committee expects inflation to rise gradually toward 2 percent as the labor market improves further and the transitory effects of lower energy prices and other factors dissipate. The Committee continues to monitor inflation developments closely."

Unemployment Rate – The unemployment rate declined during the final calendar quarter from 5.9% in September 2014 to 5.6% in December 2014. Initial jobless claims increased from 288,000 for the week ending September 27, 2014 to 298,000 for the week ending December 27, 2014.

Consumer Confidence - The Conference Board's Consumer Confidence Index increased in December to 92.6. This was an increase of 3.6 points since September 2014. "Consumer Confidence rebounded modestly in December, propelled by a considerably more favorable assessment of current economic and labor market conditions. As a result, the Present Situation Index is now at its highest level since February 2008 (Index, 104.0). Consumers were moderately less optimistic about the short-term outlook in December, but even so, they are more confident at year-end than they were at the beginning of the year."

Consumer Price Index (CPI) – "The Consumer Price Index for All Urban Consumers (CPI-U) declined 0.4 percent in December on a seasonally adjusted basis, the U.S. Bureau of Labor Statistics reported on January 16, 2015. Over the last 12 months, the all items index increased 0.8 percent before seasonal adjustment.

"The gasoline index continued to fall sharply, declining 9.4 percent and leading to the decrease in the seasonally adjusted all items index. The fuel oil index also fell sharply, and the energy index posted its largest one-month decline since December 2008, although the indexes for natural gas and for electricity both increased. The food index, in contrast, rose 0.3 percent, its largest increase since September."

Investment Strategy

Our "buy and hold" investment strategy is based on our current security mix (Treasuries, Government Sponsored Enterprises (GSE), depository accounts, etc.), projected cash flows, current and desired weighted average maturity (WAM), and interest rate projections. On average, economists are projecting short-term interest rates will increase from 0.27% to 0.94% by December 2015. As shown in the Detailed Portfolio Schedule on page 6, we currently have 44% of our security portfolio invested in callable Agency securities. Given the County's current composition of callable agency securities and projected interest rate environment, the current portfolio's callable securities have a reasonable probability of being called when compared to prior quarters. With a positive yield curve, short-term interest rates projected to increase over the next year, we anticipate allocating approximately 10% of the portfolio on the long-end of the five year investment curve. Concurrent with the projected influx of tax revenues, our objective is to have the long-term portfolio's weighted average maturity to approximate 1.30 – 1.60 years for the balance of this fiscal year.
