Work Session	February 4, 2014	9:30 A.M.
--------------	------------------	-----------

Revised February 3, 2014

AGENDA

1. [Emergency Medical Services Financial Sustainability](#)
2. [Safe Communities Deep Dive](#)
3. [Cross Bar/Al-Bar Ranch Property Discussion](#)
4. [Waiver of Board policy on voting at Work Sessions to confirm appointment of St. Petersburg Mayor Rick Kriseman to the Tourist Development Council](#)

5th Floor Board of County Commissioners Conference Room

5. [Board, Council and Committee Appointments](#)

Order of items is subject to change. All times are approximate. Break may be taken.

.....

Citizen's Comments Will Follow Presentation(s)

Any person wishing to speak regarding a work session topic must have a blue card completed and given to the agenda staff at the staff table. The Chair will call the speakers, one by one, to the podium to be heard. Each speaker may speak up to three minutes. Persons who have been authorized to represent a group of five or more individuals, who are present, should each complete blue cards and limit their presentation to 10 minutes.

EMS Financial Sustainability

Fitch & Associates Study Scope

3

- Compare the IPS Study and Sanford Millican Plan to the existing EMS System.
- Provide any further Recommendations deemed appropriate by consultant
- At a minimum, the model configurations should keep system performance for first-responder at the current 7:30 minute response interval 90% of the time and ambulance at 10:00 minutes 90%

Response Times

4

Medical First Responder & Ambulance Emergency Response Times by Minute Intervals
Jan 2012 - Dec 2012

Process

5

- Engagement of key stakeholders was essential. Fitch met with fire chiefs; ambulance contractor; 9-1-1 personnel; medical director; hospitals; county & local officials; and labor representatives.
- Optima deployment software modeled actual system performance (FY2011) and correlated with financial data. Fire rescue agencies were asked to provide their financial data as well.
- Key in this process was fire chiefs. They provided their concurrence/comments on model assumptions and operational issues.

Report Findings

6

- The system is clinically excellent – one of the best EMS systems in North America
- The system has excess capacity – especially in first responder resources
- Hybrids, as outlined by stakeholders, do not work. Fragmentation increases costs and/or reduces efficiencies achieved through a true regional system
- Gave every ‘benefit of doubt’ to fire departments in analysis
- IPS works – saves \$16M; however a dramatic change to system
- Sanford-Millican could work if appropriately staffed, but costs \$9M greater
- CARES pushes more efficiency out of system from excess capacity, and saves \$7.0M (current value)
- Prepares system for changes in health care; Response times requirements remain as they are
- FDs recommended to handle low priority calls, as they requested
- FDs should adjust work schedules during middle of the night when there are less calls and less traffic. We don’t need the same number of units at 2AM as we do at 2PM.
- System wide costs may be reduced by up to \$7.0M annually (not necessarily County funding)

County Proposal – December 2013

7

- County staff discussed long-term agreement and implementation of CARES model with providers in November & December 2013
- Goals are protect level of service, funding fairness, reliability & appropriate cost controls.
 - Concept included a new ALSFR five-year agreement.
- Phasing in over 5 years, funding changes that provide fiscal sustainability.
 - In FY15, those cities/districts overcapacity will be reduced by their proportionate share of \$1.4M for 5 years.
 - This allows us to establish a new base funding rate
- If future budget requests are tied to an appropriate index (i.e. CPI) and codified in longer-term agreements, existing millage projections show that system is sustainable;
 - Starting in FY18, increases will be indexed to the lesser of 1) Price Index or 2) 125% of taxable valuation based on actual costs
- Allows for development of new system attributes that may ultimately be cost saving in themselves (i.e. community paramedics, significant public outreach for injury prevention, etc.)
- Reduced & capped Sunstar increases at 4% (vs. 6%)

Stakeholder Response

Moving toward Consensus

8

- In Phase 1 discussion (November & December 2013), County staff proposed providers assume the cost to connect to County's technology infrastructure from their fire stations. The County currently spends over \$250,000 per year total to connect fire stations back to the County network. **Agencies largely disagree with this recommendation and we said 'OK, the County can**
- City manager's raised the practice of funding 'allowable costs' for some agencies. The recent practice has decreased considerable, but current value is \$256,996 (CLW=\$71,273; PP=\$185,723). **City managers felt 'allowable costs' must be tied to specific system benefit / justification and applied equally to all, and we said 'OK, the County can ...**

- Stakeholders questioned new County proposed requirements for increased Professional Liability insurance. **Agencies largely disagree with this recommendation and we said ‘OK, the County can**
- Cities and Districts expressed concerns with County proposed language on Community Paramedics, Medical Direction, and paramedic continuing education. **The concerns focused on potential additional costs to providers, and we said ‘OK, the County can ...**

- The Fitch report analyzed resources irrespective of their funding source. Accordingly, some EMS districts have municipal/district funded units that the CARES model anticipates decreasing. **Municipalities/districts do not believe their funding should be reduced when the CARES model indicates a contractor funded units being reduced, and we said . . .**
 - Let's model Authority funded units only to resolve this main stakeholder concern
 - Allow every city and district agency to go online to verify response times to ensure they are receiving appropriate resources

Authority Funded – CARES 2

11

- Asked Fitch to model contractor funded units only.
- Results showed Countywide was largely compliant at 7:30 without contractor funded units 90% of the time.
- Further modeling added 3 units and updated turnout times to reflect closely to 2013 actual.
- New model (CARES 2) shows Countywide and districts meet 90% compliance at 7:30

Recommended Framework

12

- Fund only those resources required to meet system criteria – 7:30 response time on 90% of calls
- Utilize CARES model – adjust funding during late night/early morning hours when resources not required
- Add new (required) resources where needed
- Reduce funding for current excess resources over 3 years
- Freeze payments for 3 years (FY 2015 thru FY 2017)
- Apply cost index to first responder funding beginning FY 2018

Questions

21

A WORKSHOP OF THE
PINELLAS COUNTY
COMMISSION

FEBRUARY 4, 2014

STRATEGIC DEEP DIVE

Safe Communities

2

- What Makes a Safe Community?

Definitions of Safe Community

3

- The World Health Organization (WHO) Manifesto for Safe Communities states that “All human beings have an equal right to health and safety”. The emphasis of the Safe Communities approach is on collaboration, partnership and community capacity building to reduce the incidence of injury and promote injury-reducing behaviors.
- Safe Communities America, a program of the National Safety Council, is a proven approach to community injury reduction structured around a broad coalition of community partners - involving business, civic organizations, local government, non-profits, and local residents.
- NHSTA - Defines a Safe Community as a community that promotes injury prevention activities at the local level to solve local highway and traffic safety and other injury problems. It uses a "bottom up" approach involving its citizens in addressing key injury problems.

Gallup Survey

4

- Together, Gallup and Healthways have developed the world's most comprehensive, definitive source of well-being measurement, the Gallup-Healthways Well-Being 5. This scientific survey instrument and reporting experience measures, tracks and reports on the well-being of individuals and organizations.
- The five essential elements of well-being are:
 - **Purpose:** Liking what you do each day and being motivated to achieve your goals
 - **Social:** Having supportive relationships and love in your life
 - **Financial:** Managing your economic life to reduce stress and increase security
 - **Community:** Liking where you live, *feeling safe* and having pride in your community
 - **Physical:** Having good health and enough energy to get things done daily

Rankings from Gallup

5

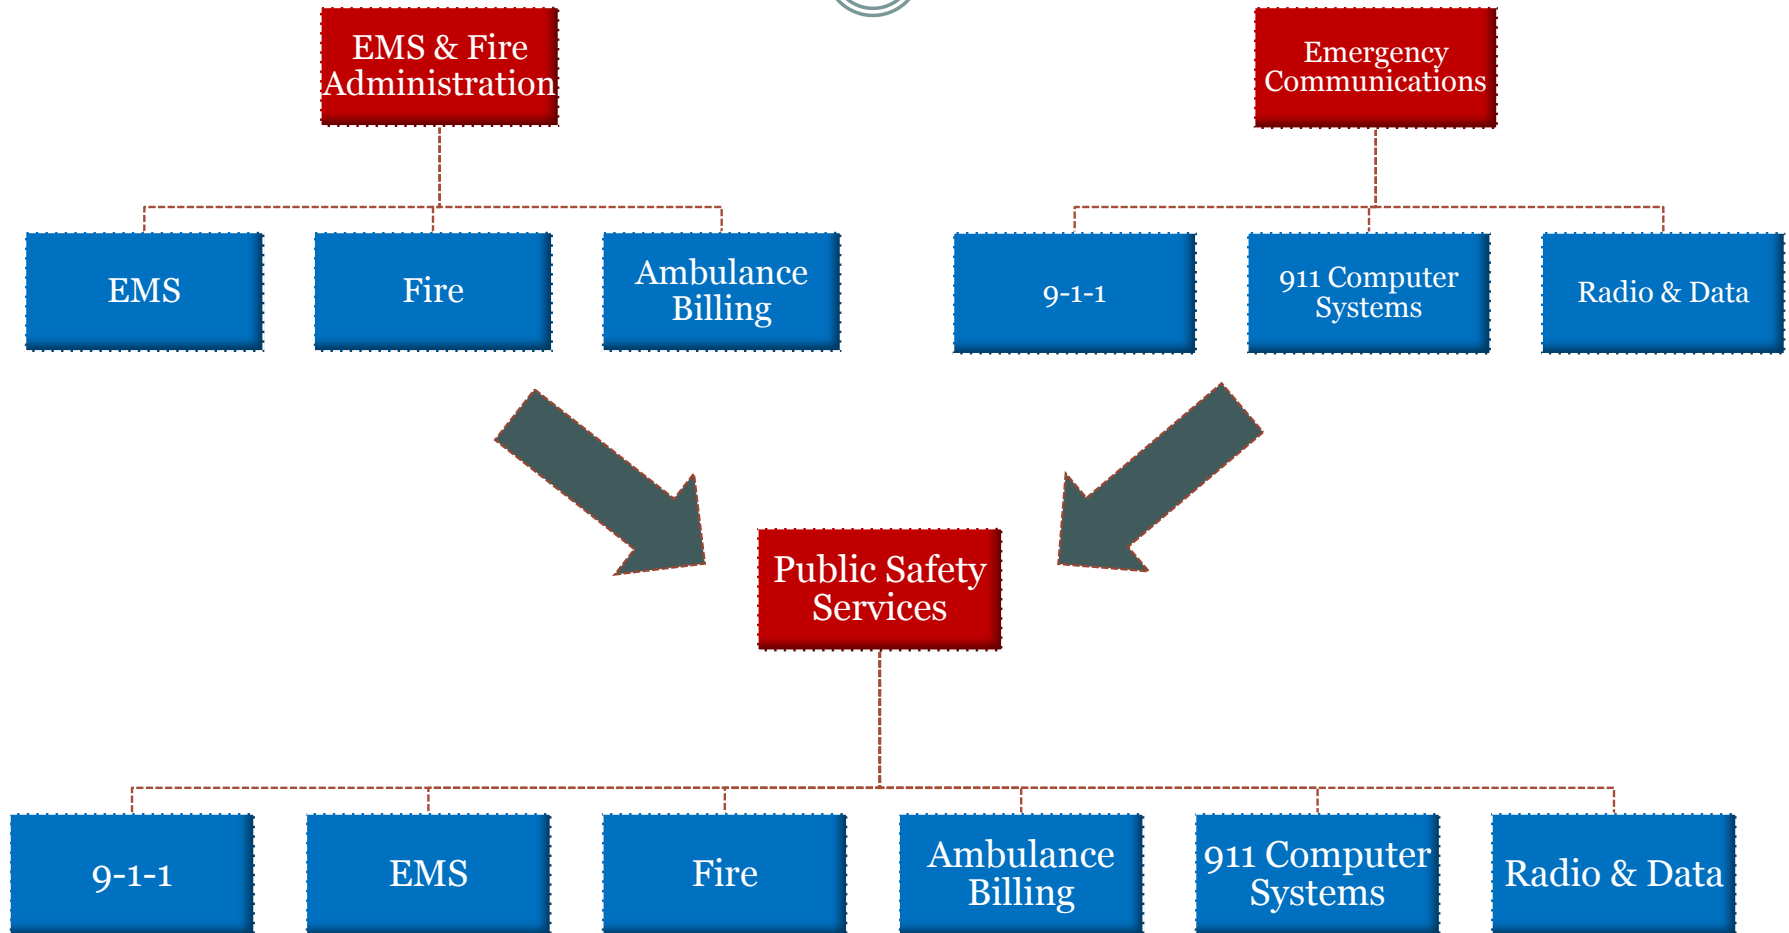

- In 2012 Florida's State composite ranking was 34th nationally – placing it in the 4th quintile
- Within the largest 189 MSAs, Tampa-St. Petersburg-Clearwater ranked in the 5th quintile at 162.
- Within Florida's Congressional District – the 13th ranked at 174th (out of 435), in the 2nd quintile; the 12th ranked at 401st, the 5th quintile; and the 14th District ranked at 71st, in the 1st quintile.

- Volunteers Hours Logged - 33,063
- Number of Special Events - 130
- Adoptions/Transfers (includes Pet Store Adoptions - 4,293/952

Total Impounds

13

- “Other” impounds decreased significantly in 2010 due to cessation of all wildlife intake save raccoons
- “Other” impounds became negligible in 2011 due to cessation of raccoon intake

Live Release Rate

14

Live Release Rate

Live Release Rate = Live Outcomes ÷ Total Intake (minus owner requested euthanasia)

Emergency Management Division

15

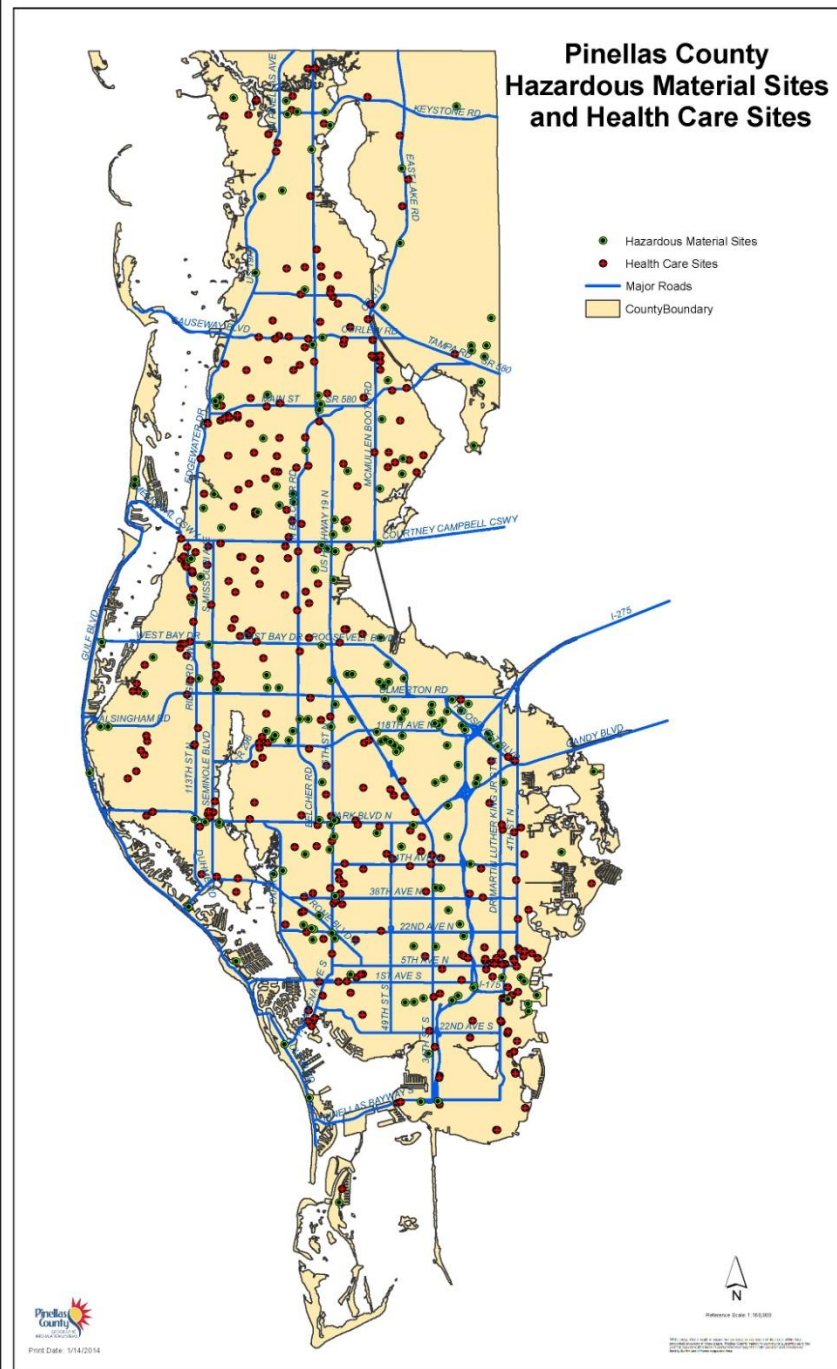

- **Core Services**

- Develop & manage Comprehensive Emergency Management Plan (CEMP)
- Coordinate and develop plans and planning guides on a Countywide basis.
- Develop & maintain a continuity of government plan (COOP) for disaster recovery
- Operate Emergency Operations Center (EOC)
- Review and approve 350+ health care facility disaster plans. (State mandate)
- Provide warning and notification for partner agencies as well as the public in advance of, or in response to, an emergency.
- Provide public education and outreach to citizens on all hazards.
- Maintain and manage the Special Needs Evacuation Assistance program for citizens.

- **Metrics**

- Number of healthcare facility annual plan reviews
- Number of Hazardous Material facility annual inspections
- Percentage of Hurricane Evacuation Center Spaces available versus estimated need
- Percentage of County staff fully NIMS compliant (National Incident Management System).
- Percentage of County departments with completed Continuity of Operations Plans
- Comprehensive Emergency Management Plan Compliance
- Volunteer hours logged for department (10,414)
- Outreach events with direct contact to citizens (2,500)
- Annual coordination meetings with county departments, community partners and local and state agencies (459)

- Assure Emergency plans in place for Health Care facilities
- Inspection of Hazardous Materials sites

Emergency Medical Services Division

17

• Core Services

- Contract management for
 - ✦ Medical transportation (Paramedics Plus)
 - ✦ First Responder (18 fire agencies)
 - ✦ Medical Oversight
 - ✦ Continuing medical education (St. Petersburg College)
- Credentialing & Professional Standards
- Regulation of wheelchair transport providers
- Medical Equipment & supplies

• Metrics

- Customer Satisfaction – Emergency & Non-Emergency Segments
- Emergency Response Time for Paramedic First Response and Ambulance Service
- Non-Emergency Response Time for Ambulance Services
- Sudden Cardiac Arrest (SCA) Survival and Return of Spontaneous Circulation (ROSC)
- Trauma Alert Scene Time & “Golden Hour” Compliance
- Quality Assurance Review metrics and outcomes

Fire Incidents Dispatched

2004 - 2013

27

Pinellas County Fire Districts and Stations

Justice & Consumer Services Division

29

- **Consumer Protection Core Services**

- Dispute Resolution
- Consumer Fraud Investigations
- Regulation of County Ordinances
 - ✦ High Prescriber Health Clinics
 - ✦ Adult Use
 - ✦ Bingo
 - ✦ Towing
 - ✦ Moving
 - ✦ Price Gouging
- Community Outreach/Citizen Engagement

- **Consumer Protection Metrics**

- 1,163 consumer complaints
- \$322,000 in refunds, adjustments, and restitution
- 75% of investigations result in a positive outcome
- 76% of consumers contacted within 10 days of assignment
- 99% of licenses issued within 30 days
- 98% conviction rate on criminal offenses
- 72 community outreach and media events

Justice & Consumer Services Division

30

• Justice Coordination Core Services

- Justice System Facilitation and Collaboration
- Research and Planning Initiatives, Justice System Contracts, Grants and Programs
 - Medical Examiner, Drug Court, Juvenile Detention, Guardian Ad Litem
- Internal County Support
 - Purchasing contracts due diligence
 - New employee and volunteer background history review
 - Cremation and autopsy billing
- Law Enforcement Data Sharing Applications for Pinellas Agencies
 - Predator and Offender Tracking
 - Real-time cross agency data access
 - Crime trend mapping application that feeds Crime Viewer
 - Pawn application
 - Sexual Predator placement mapping application used by DOC

• Justice Coordination Metrics

- 60 Judicial contracts and agreements
- 13 Grants totaling over \$4 million
- 2,952 Legal Aid clients
- 1,153 Child Protection exams
- 1,691 children served through Guardian Ad Litem
- 2,621 Drug Court clients served
- Successful District Court of Appeals ruling reducing counties shared Juvenile Detention cost from 73% to 32%
- Reduced Pinellas County FY 14 Juvenile Detention bill by \$2.6 million

Radio & Technology Division

25

• Core Services

- Manage countywide 800MHz radio system w/ over 10,000 users
- Own and update computer-aided dispatch system and mobile data application
- Maintain wide area network for 69 fire stations and other sites
- Manage public safety mapping / GIS needs
- Centralized reporting functionality for all system users

• Metrics

- 99.99% Computer System Availability
- 99.99% Radio System Availability
- 99.9% Data Accuracy for CAD
- 98.74% Mapping of 911 Callers
- Customer Satisfaction
- ISO and Accreditation Ratings for Technology Services

Regional 9-1-1 Division

32

- **Core Services**

- Answer all 9-1-1 calls for the county
- Provide Emergency Medical Dispatch (EMD) & Emergency Fire Dispatch (EFD) services
- Dispatch and monitor all fire related incidents & fire department units
- Serve as State Warning Point for Pinellas County

- **Metrics**

- 99% of 911 calls answered within 10 seconds – State requirement is 90% within 10 seconds
- 91% of calls dispatched within 90 seconds
- 99% protocol compliance on EMD

9-1-1 Calls

2004 thru 2013

33

Challenges & Opportunities

34

Ambulance Billing & Financial Services Division

35

• Challenges

- Increasing Federal Regulations – cost associated
- Healthcare Legislation (PPACA) – many unknowns
- Recovery Audit Contractors (RAC) – burden on provider

• Opportunities

- Leverage Technology – generating efficiencies will facilitate absorbing costs related to compliance with regulations
- Increase revenues – reduced number of uninsured
- HPO – continue as a leader in the ambulance billing industry

Animal Services Division

36

● Challenges

- Increasing Live Release Rate as an Open Admissions Shelter
- Maintaining a healthy, clean and safe kennel facility for animals, staff and the public.
- Varying levels of “Responsible Pet Ownership” or lack thereof in the community.
- Pet overpopulation (particularly of certain dog breeds and cats) due to lack of citizen awareness and/or irresponsible pet ownership.
- Housing/Insurance Restrictions regarding certain dog breeds.
- Labor Intensiveness of Cruelty Cases
- Birds and other animal needs (PCAS only handles Dogs and Cats)
- Compassion Fatigue
- Reduction in Staff

● Opportunities

- Organizational restructuring to maximize efficiency and effectiveness
- Streamlining services with primary partners
 - SPCA Tampa Bay
 - Humane Society of Pinellas
 - Other Partners
- Increasing community collaboration and education
- Improved technology (shelter and field vehicles)
- Further development of the Animal Welfare Trust Fund
- License automation and increased compliance
- Further increases in volunteerism and animal fostering
- Facility and vehicle upgrades

Emergency Management Division

37

- **Challenges**

- Develop adequate Hurricane Shelter space
- Reductions and reorganizations within the County and Partner Agencies
- Public Complacency

- **Opportunities**

- Enhancement of community facilities for survivability and community service via partnerships
- Streamlining of organizational coordination
- Development of innovative public education & outreach tools
- Enhancement of current coordination activities & operational capabilities at new Public Safety Campus

Emergency Medical Services Division

38

• Challenges

- Decentralized EMS clinical workforce (1,600 personnel in 19 Agencies)
- EMS has both a Public Safety and a Healthcare System role, so we interface with large number of governmental, non-profit and for-profit entities.
- EMS responds to all types of medical conditions –The rate of change in medical subspecialties is a training challenge.
- Several emergency procedures and treatments provided by Paramedics are very low frequency, but, very complex and are high risk due to the critical state of the patient.

• Opportunities

- Establish long term financial sustainability
- Improve Paramedic critical thinking, patient assessment and low frequency skill competency
- Improve initial Paramedic clinical orientation and internship
- Complete the implementation of the electronic medical records system
- Bid for a new Ambulance contract effective October 2015

Fire Administration Division

39

• Challenges

- The County has limited authority controlling fire services costs in unincorporated areas.
- Lack of uniformity in millage rates.
- Reductions in EMS funding may cause fire budgets to increase.

• Opportunities

- Establish minimum service levels, as defined by the Insurance Services Office
- Expand Fire Operations to include additional regional programs (e.g. water rescue, logistics, training, prevention and education programs)
- Establish Capital Replacement guidelines for contracted departments

Justice & Consumer Services

40

- **Challenges**

- Possible expiration of moratorium on high prescribing clinics
- Juvenile Detention Billing Reform
- Telemarketing statute review and reform
- Regional law enforcement data exchange system

- **Opportunities**

- Increased consumer protection through review and update of ordinances
- Expand consumer protection outreach opportunities
- Continued participation in multi-jurisdictional collaborative teams

Radio & Technology Division

43

- **Challenges**

- **24/7 Public Safety Operations** – Ensuring all critical functions remain operational (CAD and Radio).
- **Multi Agency Operations** – Constant communication is required to ensure business needs are met for all Law, Fire, EMS and Ambulance.
- **ISO and NFPA Requirements** – Ensuring all ISO requirements are met as they pertain to dispatch operations. We routinely receive full credit from ISO.
- **Migrating to Public Safety Campus** – Ensuring critical functions and interfaces remain operational during transition to new facility.
- **NG 911** – Pending requirements and CAD interfaces to NG911 technology.

- **Opportunities**

- **Centralized Data** – Enhance CAD and Mapping
- **CAD-to-CAD Interfaces** – Electronic interfaces to CAD systems
- **CAD System Consolidation** – Eliminates duplication of data & effort; Results in significant savings.
- **Constructing a New Master/Prime Radio Site at the PSC** - Ensures system robustness during major weather events.
- **All Public Safety Agencies on Single Radio System** – Only one agency - Clearwater Police – do not utilize the regional radio system
- **Real Time Data** – Ability to share data from multiple sources to a single system for centralized incident management and situational awareness

Regional 9-1-1 Division

42

- **Challenges**

- Consolidation with Sheriff's Office
- Completion of new Public Safety Complex
- 24/7 Public Safety Operations – Ensuring all critical functions remain operational
- Multi Agency Operations – Constant communication is required to ensure business needs are met for all Law, Fire, EMS and Ambulance.

- **Opportunities**

- Collaborate with other Law Enforcement Agencies to improve 911 efficiencies
- Next Generation 9-1-1 (NG-911) allowing for Text-to-911 and other digital services

Benefits of Regional Consolidation

43

- **Faster**
 - Could eliminate the transfer of 159,062 (29%) of all 911 calls
- **Better Services**
 - 9-1-1 caller only speaks to a single dispatcher
- **Safer**
 - Common operating picture improves first responder safety
- **Cost Effective**
 - Savings of over 20%

Major Initiatives - 2014

44

Major Initiatives - 2014

45

- EMS System Financial Sustainability
- Public Safety Complex
- 9-1-1 Consolidation
- Radio System Upgrades
- Technology Integration Across Agencies

Public Safety Complex

(Opening Summer 2014)

46

9-1-1 Consolidation

47

- Discussions w/ Secondary PSAPs
 - Clearwater
 - Largo
 - Pinellas Park
 - St. Petersburg
 - Tarpon Springs

Benefits of Regional Consolidation

48

- **Faster**
 - Current system allows 30 seconds for call transfer
- **Better Services**
 - 9-1-1 caller only speaks to a single dispatcher
- **Safer**
 - Common operating picture improves first responder safety
- **Cost Effective**
 - Savings of over 20%

Radio & Technology

53

- CAD-to-CAD Interface
- Law Enforcement CAD
- Ambulance CAD
- Upgraded Mobile Technology
- Radio System Upgrades & Improved Robustness
- Data Integration Across Multiple Platforms
- Enhanced Reporting

Creating a Strategic Vision for Safe Communities

50

Pinellas County Government – Strategic Direction

Vision – Improve the Quality of Life

- 25 = 1, Municipalities and County working together
- Inclusive community of engaged citizens
- Aligned economic and education community
- Revitalized and redeveloped communities
- Protect and promote our region's unique natural resources

Strategic Direction

Establish, Define, and Focus on a core set of services

Maximize and Improve the service delivery level of core services

Improve Efficiency of operations

Increase Community Partnership through leadership and improved communication

High Performing Workforce

"Funnel" criteria for evaluating Core Services

Have To
Charter and Constitutional Mandates and State Statutes
"Public Goods" for everyone

9-1-1 Consolidation w/ Sheriff

- Health and Human Services
- Work Sessions – second set
 - Public Safety
 - Animal Services
 - Integrated Economic Development
 - Storm Water
 - Airport
 - Ordinance Review
 - Maintenance
- Session Flow
 - Surface questions / issues
 - Grounding
 - Discussion
 - Strategic Choices

- Core Service Areas
- Public Safety
 - Natural Resources, Surface Water, Recreation, and Culture
 - Transportation and Utility Infrastructure
 - Health and Human Services
 - Economic and Community Development, Tourist Development Council
 - Effective Government

Efficiency Initiatives
Pursue consolidation of Constitutional Officers' functions (and other county functions) in common facilities and/or North, Central and South County Service Centers.

- Implement 911 consolidation with Sheriff
- Pursue consolidation of 911 Emergency Communications dispatch operations.
- Continue to work towards an enterprise G.I.S. in cooperation with BTS, County Administrator, and the Property Appraiser.
- Explore Opportunities for consolidation with municipalities, districts, and so on
- Form a user group to surface opportunities for efficiencies

Guiding Principles for Partnerships

- Integrated Strategic Plan including Constitutionals
 - Commission "provides for"
 - Constitutionals "deliver"
- Recognize the importance of Relationships
- Focus on issues

9-1-1 Consolidation w/ Cities

- How can we work together to find a solution to a specific issue instead of conceptual discussion
 - Education
 - Council of Governments
- An identity of collaboration and cooperation is key

- County Administrator charged with developing plan for Commission input and discussion
 - Commission specific input:
 - Work with HR, Appointing Authorities and others as

We will:

- Periodically review and determine whether our core services align with current community needs
- Communicate a clearly defined set of core services
- Align our budget and resources allocations with our core services
- Increase citizen satisfaction with the delivery of our core services

- Deliver measurable savings and improved customer service from our investments in technology
- Utilize a data driven approach to target opportunities for efficiencies
- Achieve measurable per service / per unit cost savings
- Achieved cost savings from a collaborative work group for consolidation
- Collaborate with our partners to implement a sustainable countywide public safety network including law

- enforcement, fire, and EMS
- Empower employees to implement new ideas that improve service
- Increase employee satisfaction and engagement

Collaborate on Public Safety Network

Outcomes and Results

11

A Clear Public Safety Philosophy

52

Continuing Initiatives

Governance

- Govern proactively through the strategic planning process while also responding to important emerging issues.
- Govern at the level closest to the citizen (e.g. in, by, or through, strategic partners) where large infrastructure or public investment isn't necessary or already in place.
- Govern at the County level where consistency and/or county wide governance are important.
- Consider both the current and future impact of our decisions.

Decision Making

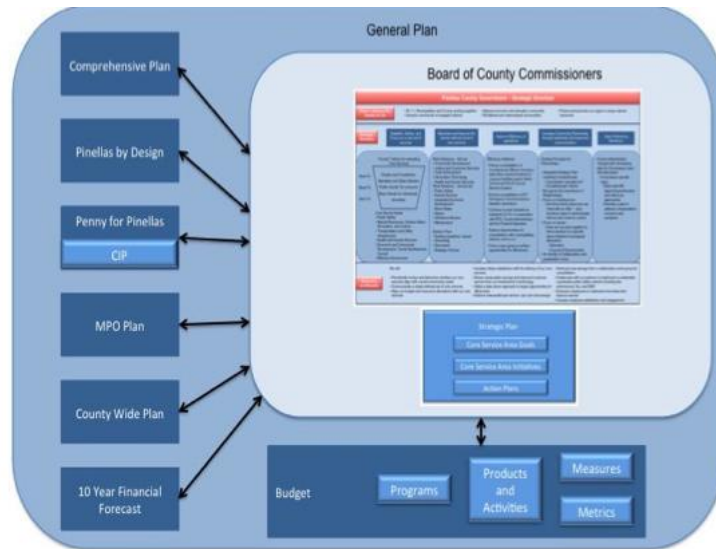

- Provide consistency and efficiency by using an enterprise approach with systems and processes while meeting specific business requirements.
- Make decisions as a commission with appropriate levels of public input, based upon the complexity, public interest, and fiscal impact of the issue.

Financial

- Align the beneficiary(ies) of a service with the funding source for that service, where appropriate.
- Maximize our returns by undertaking a level of risk commensurate with our public / fiduciary responsibilities.
- Utilize "pay as you go" funding strategy unless there is a financial advantage or long-term public benefit from debt financing.
- Deliver service in the most cost effective way while meeting established service standards.

Other

- Collaborate to break down barriers that exist which impact service delivery and quality.
- Provide the highest level of accountability considering the community impact, dollar value, and cost of administering the accountability system.
- Leverage technology and information systems over manual processes, especially in high volume transaction areas considering cost / sustainability / reduction in redundancy.

Strategic Priorities

- ▶ Future Fiscal Issues
 - General Fund Long-term Sustainability of Service Levels
 - EMS Funding
 - Storm Water Utility
 - Fire District Funding
 - Transportation Trust Fund
- ▶ Countywide Plan and Land Use Map
- ▶ Updated Land Development Code and Review Procedures
- ▶ Extreme Weather and Sea Level Rise
- ▶ Practicing Sustainability and Stewardship Ethics in County Operations, Products and Services
- ▶ **25 Equals 1** and Other Collaborative Capacity-Building Efforts and Initiatives

ELEMENT

Safe Communities

CORE COMPONENTS

- ▶ EMS
- ▶ Fire and Rescue
- ▶ Law Enforcement
- ▶ Emergency Management
- ▶ Justice & Consumer Services
- ▶ Animal Services

SUPPORT COMPONENTS

- ▶ BDRS
- ▶ Planning
- ▶ County Attorney
- ▶ Utilities
- ▶ Transportation
- ▶ Code Enforcement

Appropriate Level of Governance

57

• Local

- Where large infrastructure isn't needed or already in place
 - ✦ Law enforcement
 - Road patrol
 - ✦ Fire service
 - First Responder
 - Fire Suppression

• Regional

- Where consistency or countywide governance is important
 - ✦ Regional EMS
 - Transport
 - Medical Direction
 - ✦ 9-1-1
 - Dispatching
 - ✦ Regional radio system
 - Interoperability
 - ✦ Law Enforcement
 - Records Management System
 - Real Time Crime Information

Ongoing Initiatives

58

Ongoing Initiatives

59

- **Drive Effectiveness through Collaboration**
 - Within disciplines (vertical)
 - Across disciplines (horizontal)
- **Drive Efficiency through Technology**
 - Sharing Information & Data / Analytics
 - Achieving Situational Awareness

Situational Awareness

60

LEVEL I

- Identify Relevant Data

LEVEL II

- ‘Make Sense’ of the Information

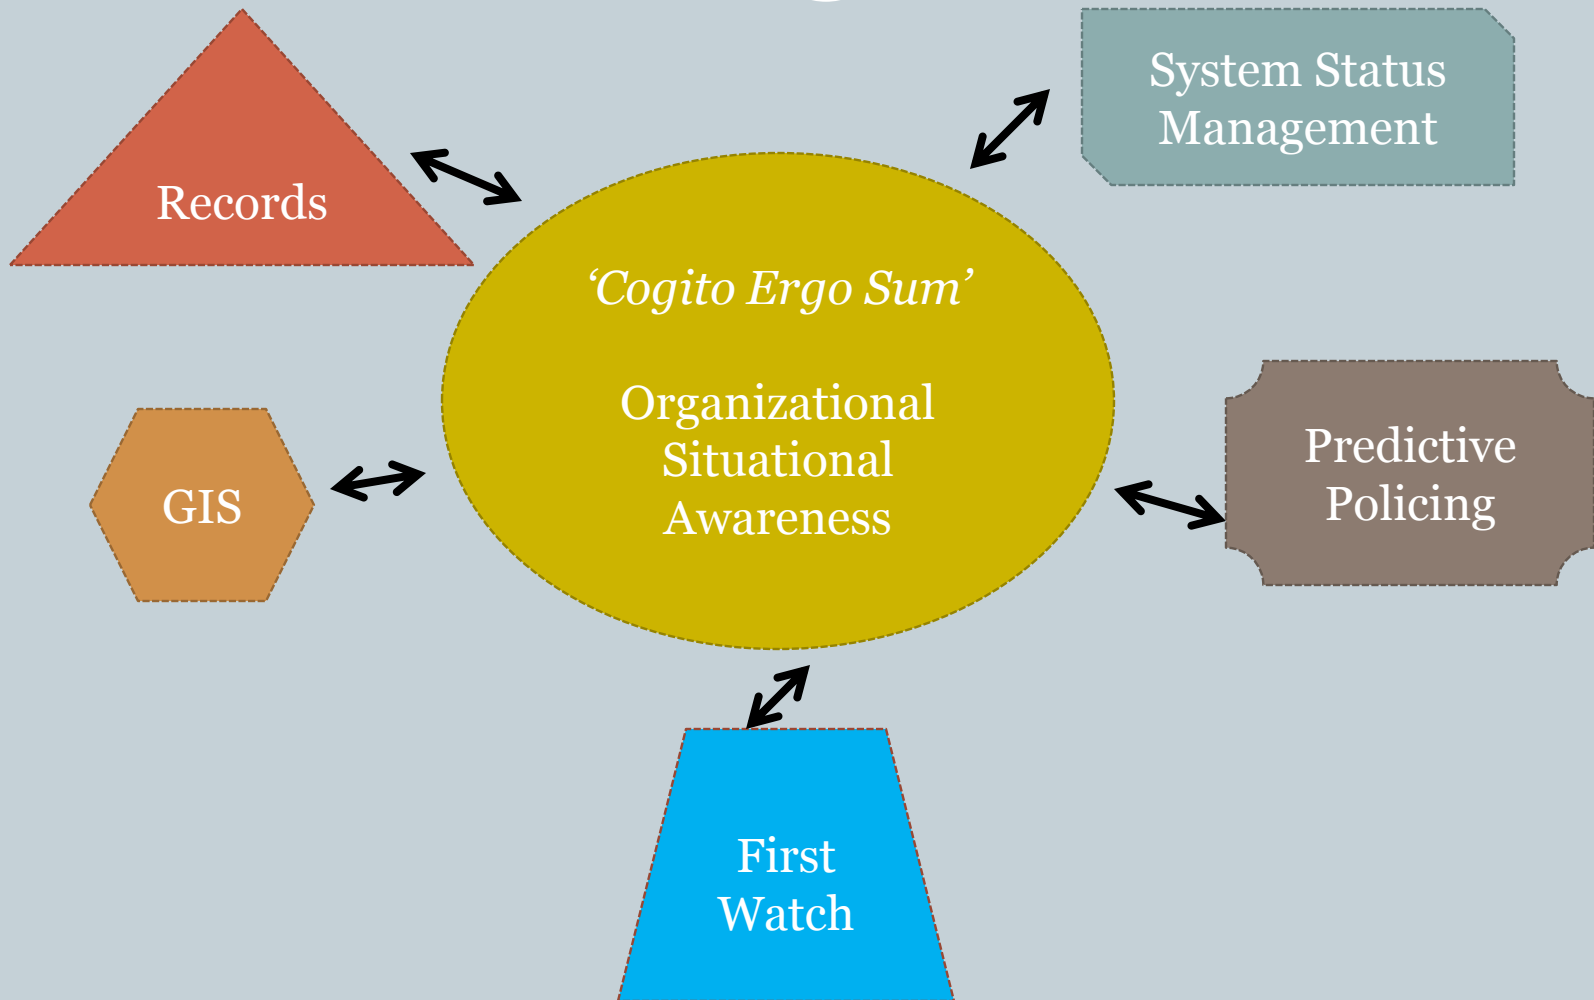

LEVEL III

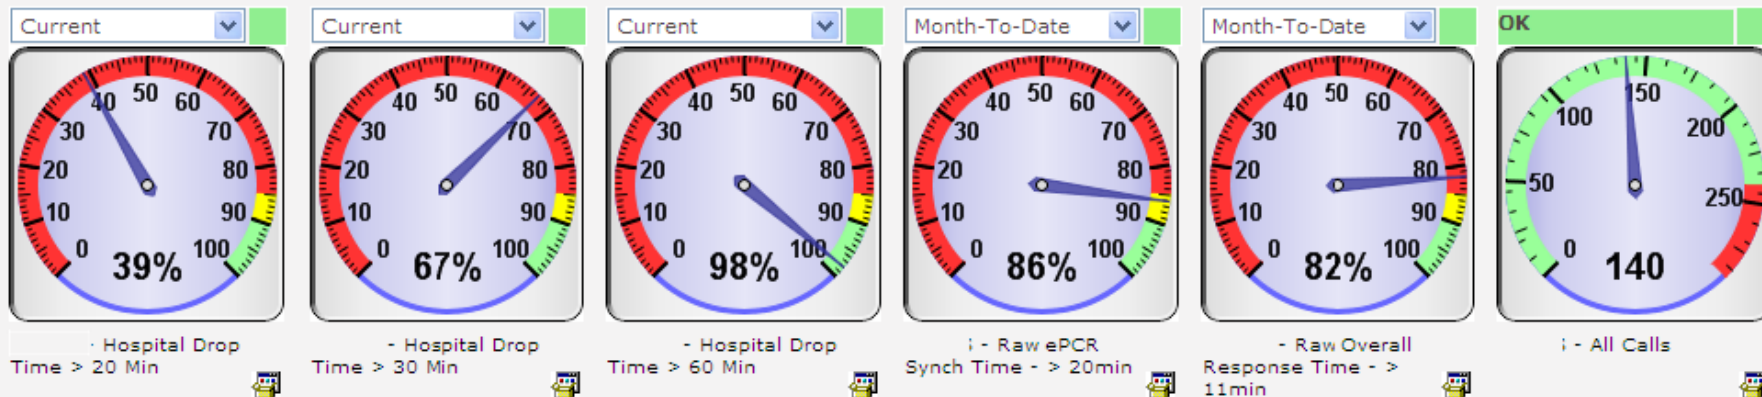

- Anticipate Future State

Big Data

61

The objective of Predictive Policing is simple: place officers at the right time and location to give them the best chance of preventing crime.

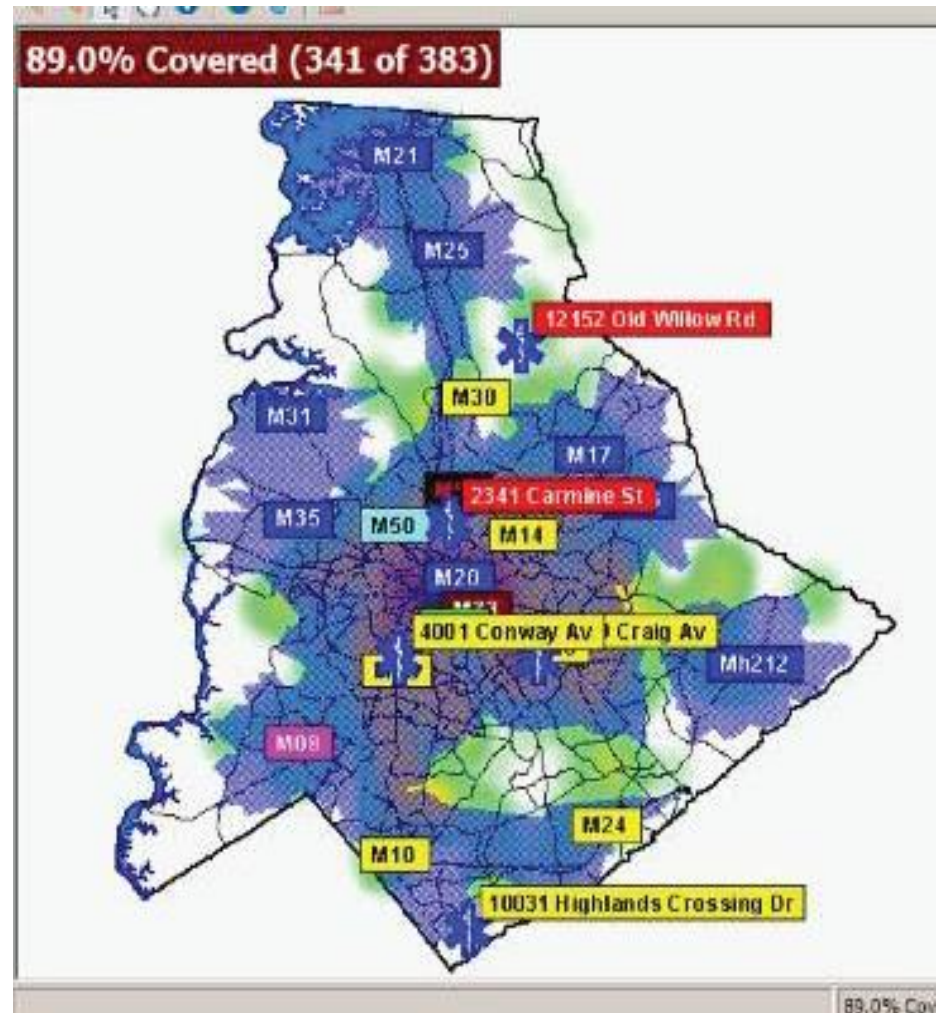

To accomplish this, data mining & analysis processes crime data in order to:

- assign probabilities of future crime events to regions of space and time
- present estimated crime risk in a useable framework to law enforcement decision makers
- lead to more efficient & more accurate resource deployment by local law enforcement agencies

Software applications like MARVLIS (the Mobile Area Routing and Vehicle Location Information System) can effectively predict demand in practical situations.

The system, currently used by Sunstar, demonstrates valuable support for a dynamic System Status Management plan to pre-position, or “post” resources closer to their next call, saving valuable time and increasingly expensive fuel costs.

Future State

66

Safe Communities – Strategic Focus

67

- Expand 9-1-1 Services to Law Enforcement
- Provide Leading Public Safety Technology
- Continued EMS Excellence
- Facilitate Improved Fire Service Effectiveness
- Increase Emergency Management Robustness
- Deliver Consumer Protection Where Gaps Exist
- Position Animal Services as a “Best in Class” public sector Animal Services Agency.
- Remain Fiscally Vigilant

Cross Bar / Al Bar Ranch Work Session

*By
Pinellas County DEI
February 4, 2014*

Cross Bar / Al Bar Ranch

- Cross Bar (~8200 ac.) purchased in 1976
- Al Bar (~4200 ac.) purchased in 1990
- 12,400 acres located in north central Pasco County
- Purchased price of \$11.1 Million

History & Background

CROSS BAR RANCH:
A MODEL FOR TOMMORROW

- Cross Bar property previously utilized for cattle ranching and citrus groves
- Wellfield began production in 1980 on Cross Bar by former West Coast R.W.S.A.
- Total Ecosystem Management Program initiated in 1992

Wellfield Production

Tampa Bay Water Governance

- Exclusivity clause prohibits Pinellas County from owning or operating Water Supply Facilities
- TBW Production Failure provides for additional rights to this clause, only to the extent to meet the shortfall demand capacity
- Interlocal Agreement with Tampa Bay Water has restricted covenant on the Cross Bar Ranch only
- TBW has exclusive rights for water supply purposes on Cross Bar Ranch only
- Pinellas County shortfall capacity is limited to 1 MGD on Cross Bar Ranch

Al Bar Ranch

- Al Bar Ranch is not covered under TBW's restricted covenant
- No TBW production wells are located on Al Bar
- Potential exists for additional water supply wells should a TBW production failure be declared
- Land acts as a wellfield protection buffer to Cross Bar Ranch wellfield
- Pinellas Co. has legal control over proposed activities, such as reclaimed water rehydration projects and potential mitigation banking

Governance Termination

- TBW agreement has a limited termination clause which entitles each Member Government to purchase its respective Termination Option Share of each Water Supply Facility
- In an unlikely event of termination, the owner of the surrounding Cross Bar Wellfield property has a potential advantage of purchasing the wellfield assets

Water Use Permitting

- SWFWMD has designated the Tri-County area as a Water Use Caution Area with a recovery plan in place
- Groundwater withdrawals from TBW's Central Wellfields (11 wellfields) are limited to 90 MGD
- Cross Bar wellfield is part of the Central Wellfields capacity limits
- Future water supply from Cross Bar and Al Bar Ranches will be limited as a result of the recovery plan

Additional Information

- Cross Bar/Al Bar Ranches are not environmental lands as defined by the charter and therefore are not bound by a voter referendum requirement
- Real Estate Management estimates the cost of preparing property appraisals at \$10,000 - \$15,000 for each parcel (Total = \$20,000 - \$30,000)

Limitations on the Sale Proceeds

- Cross Bar and Al Bar Ranches were purchased using Enterprise water system funds
- Current revenues from the ranches are returned to the Enterprise water system fund
- Current county policy is to maintain a closed loop funding system whereby all funds stay within the enterprise fund
- There are no contractual conditions (bonds) requiring a closed loop funding system
- No County Ordinance or Florida Statute requires a closed loop funding system

Water System Projects

- Asset preservation efforts of the existing water system could greatly benefit from the proceeds of a potential sale
- Five Water CIP projects have been deferred due to funding shortfalls (Total = \$10.3 Million)
- Multi-year CIP projects could be accelerated with additional funding (Total = \$19.3 Million)
- Estimated Total = \$30.6 Million

Discussion

■ **Option 1**

Sell one or both of the Ranches to Pasco County

■ **Option 2**

Negotiate Less-Than-Fee acquisition for one or both of the Ranches with Pasco County

■ **Option 3**

Enter into an Interlocal Agreement with Pasco County to open the Ranches to the public for recreation use

■ **Option 4**

Pinellas County retains land and updates the business plan to optimize revenues for both Ranches

Option 2

- Less-Than-Fee Land Acquisition Method has been successful in the Florida Forever Program
- Purchase of limited property rights (conservation easement), but still owned by Pinellas County
- Negotiate term of acquisition (30 yr., 60 yr., 99 yr.)
- Negotiate timber revenues
- Negotiate future water supply rights (production failure or TBW Governance termination rights)
- Negotiate potential mitigation banking options/revenues
- Negotiate types of development or restoration activities allowed

WORK SESSION AGENDA:

2.4.14 #4

CITY OF ST. PETERSBURG

OFFICE OF THE CITY COUNCIL
Bill Dudley, Chair
Council Member, District 3

January 30, 2014

The Honorable Karen Williams Seel, Chair
Pinellas County Board of County Commissioners
315 Court Street
Clearwater, FL 33756

Sent via email

Commissioner Seel:

During a regular session of the St. Petersburg City Council on January 23, 2014, Mayor Rick Kriseman was unanimously recommended to serve on the Tourist Development Council.

If you should have any questions regarding this recommendation, please feel free to give our office a call at 727 893-7117.

Most sincerely,

Bill Dudley, Chair
St. Petersburg City Council

Commission Work Session Date: February 4, 2014

Item No. : 5

Board, Council and Committee Appointments

No supporting documentation.
