

PROJECT FACT SHEET

BECKETT BRIDGE

Project Development and Environment (PD&E) Study
Riverside Drive from Chesapeake Drive to Forest Avenue
Tarpon Springs, Pinellas County, FL

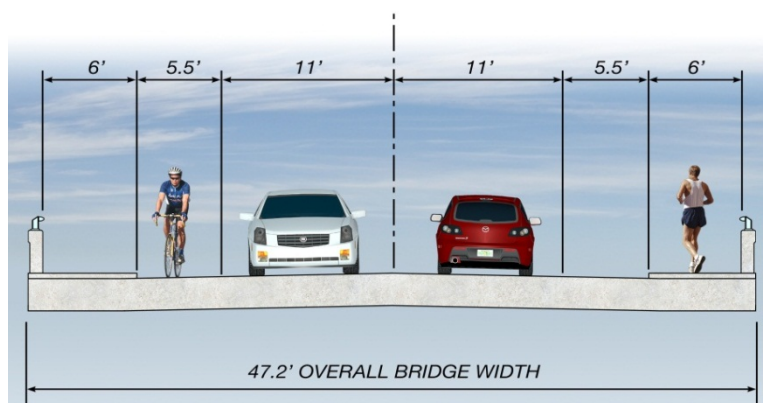

County Project Number: PID 2161

FDOT FPN: 424385-1 ETDM Number: 13040

Project Description

The Recommended Alternative consists of replacing the existing two-lane movable bridge with a new two-lane movable bridge on approximately the same alignment within existing County right-of-way. No additional property will be acquired. The proposed bridge will have 7.8 feet of vertical clearance, about 2 feet more than the existing bridge. The proposed typical section is shown below.

Project Schedule

April 15, 2014 – Board of County Commissioners (BCC) Meeting

(Meeting begins at 2:00 pm in the County Commission Chambers)

The BCC will decide whether to ratify and confirm their approval of the Recommended Alternative based on the results of the Public Hearing.

March-July 2014 – Finalize Project Documents

September-October 2014 – Obtain Federal Highway Administration Approval

Early 2015 – Begin Design

2019 – Begin Construction*

***Construction Schedule Contingent on Funding Availability**

Project Costs

The cost for design and construction of the Recommended Alternative is approximately \$15.8 M.
