

2nd ROUGH-IN PLUMBING INSPECTION

Request to Exclude Bathtub(s) and/or Whirlpool(s)

Primary Contractor's Statement:

I request that the 2nd Rough-in Plumbing Inspection be approved and the permit placard signed off prior to the bathtub(s) and/or whirlpool bathtub(s) being installed and inspected. There are no other outstanding plumbing corrections to complete the 2nd Rough-in inspection. This exclusion will allow for framing inspection and approval. By my signature below, I agree to provide for the following inspections on the bathtub(s) and/or whirlpool bathtub(s) as a separate plumbing inspection at a later date:

- (1) I will not allow any portion of the bathtub or whirlpool water piping, faucets, shower hoses or piping, vacuum breakers, tempering valves or check valves, tub waste and overflow drain, circulating piping and/or pump, support(s) and/or bedding to be concealed before inspection.
- (2) I will provide manufacturer's installation instructions and tub listing information if not visible on bathtub/whirlpool.
- (3) The bathtub(s) and/or whirlpool(s) inspection will be requested before any wallboard or finish surfaces (tile, marble, etc.) are installed that will prevent the inspector clear access to inspect all portions of those areas listed in #1 above.
- (4) I understand that the hot and cold water supply piping, faucet(s) and shower piping requires a pressure test, any whirlpool circulating piping must have a water test, and tub waste and overflow must have a water test. *At your option-Whirlpool circulating piping may be tested prior to tub being set in place. Waste and overflow, water piping, and support/bedding must then be inspected after the tub is set in place.*
- (5) I will provide permanent access panels to any fixtures with concealed slip joint connections (FBC-P #405.8 and FBC-R #P2704.1) and whirlpool pumps.
- (6) I agree that any portion of the required areas of inspection stated in #1 that get concealed for any reason will be required to be uncovered at my expense.
- (7) I have read and agree to the provisions of this exclusion, and I have had any questions answered prior to my signing. This form must be signed by the Building, General Contractor, the homeowner when acting as the builder, or the Contractor's authorized representative.

Permit # _____ Date _____

Job Address _____

Signature _____

Printed Name _____ Telephone # _____

This form must be completed and returned prior to requesting the 2nd Rough-in Inspection or given to the inspector on the jobsite:
