SUBJECT: Sunshine Law as it may apply to meetings with the Legislative Delegation

DATE: March 22, 2005

The Charter Review Commission has asked that we advise them on any Sunshine Law issues associated with a subcommittee of the CRC meeting with the legislative delegation or some subgroup of the legislative delegation.

Inasmuch as the subcommittee of the CRC would contain more than one CRC member and they would be discussing matters that could conceivably come before the CRC for consideration, such a meeting would be governed by the Sunshine Law with the attendant notice, public location and documentation requirements.
