SUBJECT: Committee to Identify Policy Measures to Best Integrate Land Use
and Transportation Plans

DATE: March 9, 2010

As you are aware, there has been considerable discussion about the need and opportunity to assure that our land use and transportation planning efforts are coordinated in the optimum manner possible.

To this end, I am recommending a Joint Land Use/Transportation Committee be established to examine this issue and identify any recommendations that the Committee determines appropriate. My recommended approach is as follows:

Committee Objectives

1. To identify the policy steps or measures that are needed to develop updated and fully-integrated future land use and transportation plans for the County as a whole. If a consensus is reached then proceed to:
2. Defining the appropriate governmental entity/entities to accomplish the task(s).

Committee Approach

To meet as necessary to evaluate and make recommendations to the respective parties of interest relative to any actions required to achieve the agreed-upon policy direction.

Committee Membership

Nine (9) members, with three (3) members appointed from and by each of the following boards at the earliest convenient date for each of the three respective boards:

Pinellas Planning Council (PPC)	- 3 Members
Metropolitan Planning Organization (MPO)	- 3 Members
Board of County Commissioners (BCC)	- 3 Members

Committee Timetable

To convene at the earliest mutually acceptable time, preferably beginning in early April, with a target completion date for the Committee's recommendations by July. This would allow ample time for consideration of any proposed legislative action by the Legislative Delegation that may be necessary in the fall of 2010 for the 2011 Legislative Session.

Thank you in advance for your willingness to undertake this important task. If I can be of assistance in this effort, please let me know. The respective staffs of the agencies involved stand ready to assist you as you determine appropriate.
