Buyer Beware!

Sometimes it is hard to spot fraud when it is happening. Scams can be large or small, sophisticated or simple, but the people behind them have two things in common: They want to steal your money and avoid being caught. The reality is anyone could fall victim to a scam, no matter your age, intellect or economic status.

Most consumer transactions are completed satisfactorily. On occasion, however, any consumer could experience unresolved problems such as defective products, erroneous bills or non-delivery of goods or services. When you are confronted with such a situation, the dedicated employees of Pinellas County Consumer Protection are here to assist you.

Investigators are available to speak with you regarding a consumer transaction at (727) 464-6200.

We Investigate

We work to find solutions that restore fairness and ensure legal compliance. Millions of dollars have been recovered for consumers through refunds, adjustments and court-ordered restitution. For assistance with a consumer problem, the first step is to file a written complaint online, by email or at our office.

Dispute Resolution

Our goal is to assist the parties in reaching a satisfactory resolution. The mediation process is conducted through telephone contacts and informal hearings, which are held at the offices of Consumer Protection, the consumer's residence or the business location.

Criminal Investigations

Violations of consumer protection laws can lead to criminal charges resulting in punishment for the offender and possible monetary reimbursement through court-ordered restitution.
