Revenue Management Supervisor 2

Category:  Classified/Excluded
Pay Grade:  C28
Job Code:  16376

To perform this job successfully, an individual must be able to perform the essential job functions satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the primary job functions herein described. Since every duty associated with this position may not be described herein, employees may be required to perform duties not specifically spelled out in the job description, but which may be reasonably considered to be incidental in the performing of their duties just as though they were actually written out in this job description.

JOB SUMMARY
This is highly responsible work leading and supervising subordinates in pre auditing, processing, and recording financial transactions in a complex multi fund and account environment of a section of the Utilities Department. An employee in this class is responsible for supervising a technical staff performing highly automated tasks to administer department revenue management systems in the Customer Service Division of the Utilities Department. Work is performed under general supervision with considerable independent judgment and initiative exercised in carrying out the daily operations of the section. This classification differs from the Revenue Management Supervisor 1, as the incumbent supervises both highly technical unit staff and performs in a cross section lead role performing financial analysis on revenues, fund reconciliations, studies, and other assignments. The position reports to the Division Manager or designee.

ESSENTIAL JOB FUNCTIONS (examples, not all inclusive)
• Serves as section leader coordinating section-wide tasks in the completion of regular and specialized accounting services research, funds resolution, funds analysis, and reporting;
• Supervises personnel implementing payment processing, billing/invoicing, collections, and/or revenue analysis functions and activities;
• Oversees the financial processes involved with reconciliation of revenue and BCC Finance;
• Trains staff on financial processes involved with the various revenue functions within specific units;
• Supervises staff engaged in complex accounting activities associated with collection of revenue;
• Maintains service level agreements for various functions associated with the department billing systems;
• Conducts internal accounting and systems audits in compliance with best business practices;
• Tests, monitors, and maintains financial accounting and information systems for internal controls and data integrity;
• Resolves complex billing issues, approves account adjustments, and billing corrections;
• Prepares, monitors, and tracks a wide range of information and reports used to manage department activities;
• Researches, establishes, and maintains relationship between Customer Services and various vendors to ensure PCI Compliancy;
• Takes initiative and demonstrates pro-active measures to take steps and make recommendations that improve department policies, procedures, systems, and capabilities;
• Ensures efficient and effective office processes taking initiative to meet business goals;
• Evaluates subordinate employees’ performance and counsels the employee as required;
• Performs other related job duties as assigned.
QUALIFICATIONS

Education and Experience:
High School diploma or an acceptable equivalency diploma (GED); and eight (8) years of experience in recognized accountant work in a highly automated business environment that includes one (1) year of governmental accounting and supervisory training or experience; or Associate’s degree in accounting, business, finance, public administration or related field (or two (2) years of related college level education) and six (6) years of experience as described above; or Bachelor’s degree and four (4) years of experience as described above; or Master’s degree and two (2) years of experience as described above; or an equivalent combination of education, training and/or experience.

Special Qualifications (May be required depending on area of assignment):
- Florida Driver's License or Florida Commercial Driver’s License and endorsement, if any.
- Assignment to work a variety of work schedules including compulsory work periods in special, emergency, and/or disaster situations.
- Preference may be given to candidates with certifications in business systems and software applicable to Utilities operations.
- Other highly desirable knowledge, skills, abilities, and credentials required for a specific position.

Knowledge, Skills and Abilities:
- Knowledge of governmental accounting principles and practices and ability to apply this knowledge to work situations;
- Knowledge of large and complex segments of a computerized governmental financial management system;
- Knowledge of data processing principles, methods and practices;
- Ability to research, analyze, recommend, troubleshoot, lead, and to implement solutions or improvements to complex business policies, procedures, and operations in a highly automated business environment;
- Ability to plan, assign and supervise the work of subordinate employees;
- Ability to communicate effectively, both orally and in writing.
