

TRAFFIC TECHNICIAN 3

Job Code	Pay Grade
16520	CL11

Nature of Work

This is skilled work providing leadership in traffic signing or marking operations within county rights-of-way. Employees in this class provide working leadership and administrative support over traffic sign fabrication and installation or traffic marking and striping operations. Duties include constant coordination with other highway operating units and include coordinating administrative and support requirements.

Minimum Qualification Requirements

- Possession and maintenance of Traffic Control Certification by the International Municipal Signal Association (IMSA) Level 1 preferred and 4 years experience in utilities, road, and construction, maintenance or repair work that includes 1 year team leader, supervisory or supervisory training in relation to traffic signing, markings or signals, or silk screening or commercial sign fabrication; or
- Possession and maintenance of Traffic Control Certification by the IMSA Level I and completion of a 2 year vocational or technical school program with a diploma or certification in construction, skilled trades or related field and 2 years experience as described above; or
- An equivalent combination of education, training, and/or experience.

Appointing Authority May Also Require

- Florida Driver's License or Florida Commercial Driver's License and endorsement, if any.
- Assignment to work a variety of work schedules including compulsory work periods in special, emergency, and/or disaster situations.
- IMSA Level II Signal Certification.
- Other highly desirable knowledge, skills, abilities, and credentials relevant to a position.

Illustrative Tasks (These are examples and are not all inclusive.)

- Provides working leadership, administration and coordination of support activities for traffic sign fabrication and installation activities.
- Provides working leadership, administration and coordination of support activities for traffic control marking and striping operations.
- Directs and inspects the work of assigned crews to ensure compliance with regulatory guidelines and proper safety procedures.
- Provides technical advice to supervisors, crews, other units and the public regarding proper signing or marking procedures.
- Trains new employees regarding regulatory guidelines, equipment operation, use of materials and proper safety practices.
- Maintains personnel records, correspondence files or other records and prepares and submits budget or purchasing information.
- Performs related work as assigned or required.

Knowledge, Skills, and Abilities

- Knowledge of the Manual on Uniform Traffic Control Devices.
- Knowledge of paints and silk screening techniques applicable to traffic control operations.
- Knowledge of maintenance and repair requirements for traffic control equipment and materials.
- Knowledge of county roads and intersections.
- Ability to perform mathematical problems with speed and accuracy.
- Ability to supervise and train employees in traffic control operations.
