**Traffic Signal Technician 2**

**Category:** Classified  
**Pay Grade:** C24  
**Job Code:** 16540

To perform this job successfully, an individual must be able to perform the essential job functions satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the primary job functions herein described. Since every duty associated with this position may not be described herein, employees may be required to perform duties not specifically spelled out in the job description, but which may be reasonably considered to be incidental in the performing of their duties just as though they were actually written out in this job description.

**JOB SUMMARY**

Performs specialized technical work in the installation, repair, maintenance, or operation of computerized traffic signal systems and related apparatus; performs in accordance with standard practices and assignments may be accompanied by sketches, blueprints, or schematics, with work also arising out of inspections and troubleshooting; serves as a crew leader with subordinate or equal level technicians.

**ESSENTIAL JOB FUNCTIONS (examples, not all inclusive)**

- Performs work required to install new traffic signals and systems including signal heads, detectors, microprocessor-based controllers, wiring, and support poles;
- Performs bench work repairs, overhauling, and rebuilding complex electronic or electrical equipment and components;
- Performs emergency and routine field servicing of complex traffic signal equipment, street lights, navigational lights, and drawbridge apparatus, often operating or working from an aerial bucket truck;
- Ensures compliance with the national Manual of Uniform Traffic Control Devices and IMSA practices;
- Calculates lead times on equipment repairs and requests materials, supplies, or manpower as required and maintains related records and logs of section activities;
- Operates and performs preventive maintenance on machinery and automotive equipment including lift or boom truck and jack and bore equipment;
- Uses hand, bench, and small power tools and test equipment in repair of electronic, electrical, and mechanical machinery and equipment;
- Maintains and reports inventory balances of critical parts;
- Serves as lead worker on a crew of technicians;
- Performs other related job duties as assigned.

**QUALIFICATIONS**

**Education and Experience:**  
Three (3) years of traffic signal experience; or an equivalent combination of education, training, and/or experience.

**Special Qualifications** (May be required depending on area of assignment):

- Florida Driver's License or Florida Commercial Driver’s License and endorsement, if any.
- Assignment to work a variety of work schedules including compulsory work periods in special, emergency, and/or disaster situations.
- Work zone traffic control International Municipal Signal Association (IMSA) Level I Signal Certification at the time of appointment.
• IMSA, Level II Signal Certification.
• Candidate to demonstrate more advanced proficiency, competency, and satisfactory completion of regularly assigned work in an independent manner. Appointing Authority retains discretion to employ an incumbent at this level or advance the incumbent non-competitively or competitively, after a candidate meets the minimum qualifications to an in-line career ladder position within the same organization or department.
• Other knowledge, skills, abilities, and credentials required for a specific position.

Knowledge, Skills and Abilities:
• Knowledge of standard practices, materials, tools, and equipment used in traffic signal installation, repair, and maintenance;
• Knowledge of local and national electrical codes, occupational hazards, and appropriate safety precautions;
• Knowledge of personal computer and mainframe operation, programming, and debugging;
• Knowledge of supervisory techniques, report writing, and evaluation process;
• Skill in the use and care of standard electronic and electrical testing equipment and devices;
• Skill in the operation of computerized traffic signal systems including signal and progression timing, controller operation, and programming;
• Skill in the application of CPR and First Aid techniques;
• Ability to interpret and work from technical sketches and blueprints;
• Ability to locate, define, and repair defects in traffic signal equipment;
• Ability to withstand exposure to varying weather conditions and work in confined spaces and at considerable heights, and possession of sufficient physical strength and agility to lift and carry heavy objects and stand and walk for long periods;
• Ability to use small office equipment and computers;
• Ability to use or repair small and medium equipment and machinery.

PHYSICAL/MENTAL DEMANDS
The work is heavy work which requires exerting up to 100 pounds of force occasionally, and/or up to 50 pounds of force frequently, and/or up to 20 pounds of force constantly to move objects. Additionally, the following physical abilities are required:
• Balancing: Maintaining body equilibrium to prevent falling while walking, standing or crouching on narrow, slippery, or erratically moving surfaces. The amount of balancing exceeds that needed for ordinary locomotion and maintenance of body equilibrium.
• Climbing: Ascending or descending ladders, stairs, scaffolding, ramps, poles and the like, using feet and legs and/or hands and arms. Body agility is emphasized.
• Crouching: Bending the body downward and forward by bending leg and spine.
• Feeling: Perceiving attributes of objects, such as size, shape, temperature or texture by touching with skin, particularly that of fingertips.
• Fingering: Picking, pinching, typing, or otherwise working, primarily with fingers rather than with the whole hand as in handling.
• Grasping: Applying pressure to an object with the fingers and palm.
• Handling: Picking, holding, or otherwise working, primarily with the whole hand.
• Kneeling: Bending legs at knee to come to a rest on knee or knees.
• Lifting: Raising objects from a lower to a higher position or moving objects horizontally from position-to-position. Occurs to a considerable degree and requires substantial use of upper extremities and back muscles.
• Pulling: Using upper extremities to exert force in order to draw, haul or tug objects in a sustained motion.
• Pushing: Using upper extremities to press against something with steady force in order to thrust forward, downward or outward.
• Reaching: Extending hand(s) and arm(s) in any direction.
• Visual ability: sufficient to effectively operate office equipment including copier, computer, etc.; and to read and write reports, correspondence, instructions, etc.
• Hearing ability: sufficient to hold a conversation with other individuals both in person and over a telephone; and to hear recording on transcription device.
• Speaking ability: sufficient to communicate effectively with other individuals in person and over a telephone.
• Mental Acuity: Ability to make rational decisions through sound logic and deductive processes.
• Talking: Expressing or exchanging ideas by means of the spoken word including those activities in which they must convey detailed or important spoken instructions to other workers accurately, loudly, or quickly.
• Repetitive Motion: Substantial movements (motions) of the wrist, hands, and/or fingers.
• Standing: Particularly for sustained periods of time.
• Stooping: Bending body downward and forward by bending spine at the waist. Occurs to a considerable degree and requires full motion of the lower extremities and back muscles.
• Walking: Moving about on foot to accomplish tasks, particularly for long distances or moving from one work site to another.

WORKING CONDITIONS

Work is performed in an environment with heavy equipment and machinery that could result in bodily harm to co-workers or others.
