**Nature of Work**

This is responsible professional, technical and supervisory work involving the technical solution development and support of the Clerk of the Circuit Court and Comptroller. An employee in this classification analyzes, evaluates, recommends, design and develops technical solutions to problems and participates in implementing, supporting and documenting technical and business systems. The incumbent plans, organizes, coordinates and supervises a technical staff involved in technical support, hardware and software systems solutions and other forms of information processing. Additional duties may include network administration, user training, documentation, and report preparation. Work requires exercising independent judgment and the ability to deliver solutions to a wide range of administrative, technology, business, and organization issues or problems. Work is performed under the technical supervision of the Operations Department Head or designee.

**Minimum Qualification Requirements**

- At least 10 years experience with prior leadership or supervisor responsibility in the position’s assigned subject matter areas and disciplines including both general knowledge and advanced expert proficiency in up to 3 or more of the following areas: Oracle Enterprise Resource Planning (ERP) System, Oracle Enterprise Business Suite, Case Management System, Enterprise Content Management, Oracle Business Intelligence, Microsoft Business Intelligence Solutions, ETL Management, Hyperion (Planning and Budgeting), Middleware Management, Application Design, Application Development (Client/Server and Web), Database Administration, Quality Assurance, Project Management, Document Management, Collaboration tools Management, Process Improvement/Innovation Management, and Digital Systems Management.
- Associate’s degree in Management Information Systems, Computer Science, Information Technology, Engineering or related field and 8 years’ experience as described above; or
- Bachelor’s degree in Management Information Systems, Computer Science, Information Technology, Engineering or related field and 6 years’ experience as described above; or
- An equivalent combination of education, training, and/or experience as described above.

**Appointing Authority May Also Require**

- Florida Driver's License or Florida Commercial Driver’s License and endorsement, if any.
- Assignment to work a variety of work schedules including compulsory work periods in special, emergency, and/or disaster situations.
- Candidate to demonstrate competence and/or possess certifications in one or more specific IT functions.
- Other highly desirable knowledge, skills, abilities, and credentials relevant to a position.

**Illustrative Tasks (These are examples and are not all inclusive.)**

- Plans, organizes and directs work of technical staff, providing support to business units.
- Develops solutions by preparing and evaluating alternative workflow solutions by applying problem solving and decision making skills.
