Nature of Work
This is responsible professional and technical work involving business systems, operations, production, business practices, workflow, and organization research. An employee in this classification attains technical and/or business specialty for analyzing work and system workflows. The incumbent analyzes, evaluates, and recommends technical solutions to problems and participates in implementing, supporting and documenting technical and business systems. Additional duties may include system administration, user training, documentation, and report preparation. Work requires exercising independent judgment and the ability to deliver solutions to a wide range of administrative, technology, business, and organization issues or problems in various information systems. Work is performed under the leadership of the Operations Department Head or designee.

Minimum Qualification Requirements
• At least 5 years experience with prior technical leadership in the position’s assigned subject matter areas and disciplines including both general knowledge and advanced expert proficiency in up to 1 or more of the following areas: Network Management, Desktop Management, Server Management, Security Management, Storage Area Network, Middleware Management, Application Design, Application Development, Database Administration, Quality Assurance, Project Management, Document Management, Collaboration tools Management, Process Improvement/Innovation Management, and Digital Systems Management.
• Associate’s degree in Management Information Systems, Computer Science, Information Technology, Engineering or related field and 3 years’ experience as described above; or
• Bachelor’s degree in Management Information Systems, Computer Science, Information Technology, Engineering or related field and 1 year experience as described above; or
• An equivalent combination of education, training, and/or experience as described above.

Appointing Authority May Also Require
• Florida Driver's License or Florida Commercial Driver’s License and endorsement, if any.
• Assignment to work a variety of work schedules including compulsory work periods in special, emergency, and/or disaster situations.
• Candidate to demonstrate competence and/or possess certifications in one or more IT functions.
• Other highly desirable knowledge, skills, abilities, and credentials relevant to a position.
