

## Quick Start Guide

Microsoft Outlook 2013 looks different from previous versions, so we created this guide to help you minimize the learning curve.

### Make it yours

Customize Outlook. Choose different color schemes and different backgrounds.

### Search

You can search a folder, subfolders, even other mailboxes.

### Manage message tasks in the Message List

Categorize, Flag, or Delete messages right where they live—in the Message List.

### Backstage view

Click the **File** tab to open the Backstage view, where you add account and change settings.

### Reply from the reading pane

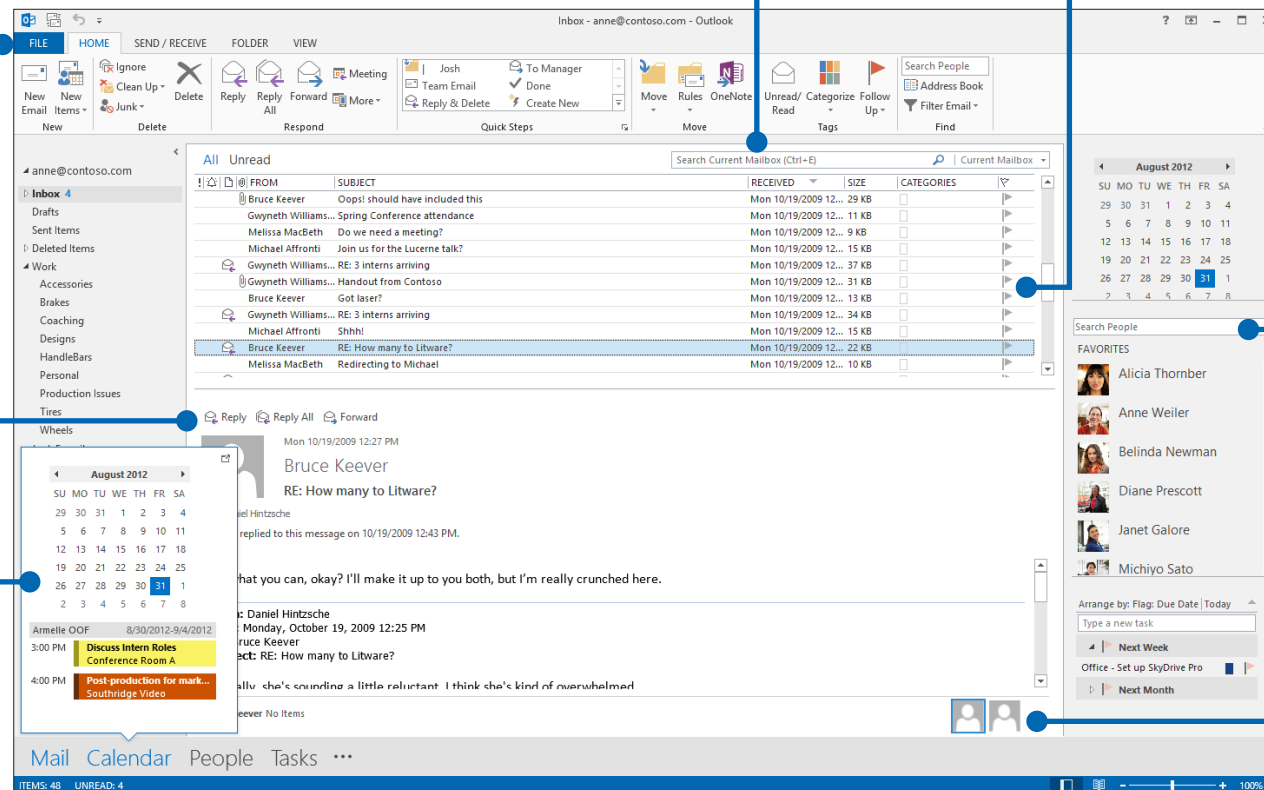

Reply and Forward right from the reading pane. Write a reply in the reading pane, too.

### Peek

See a quick view of your Calendar, People, and Tasks. Even see upcoming appointments.

### Do more in the To-Do Bar

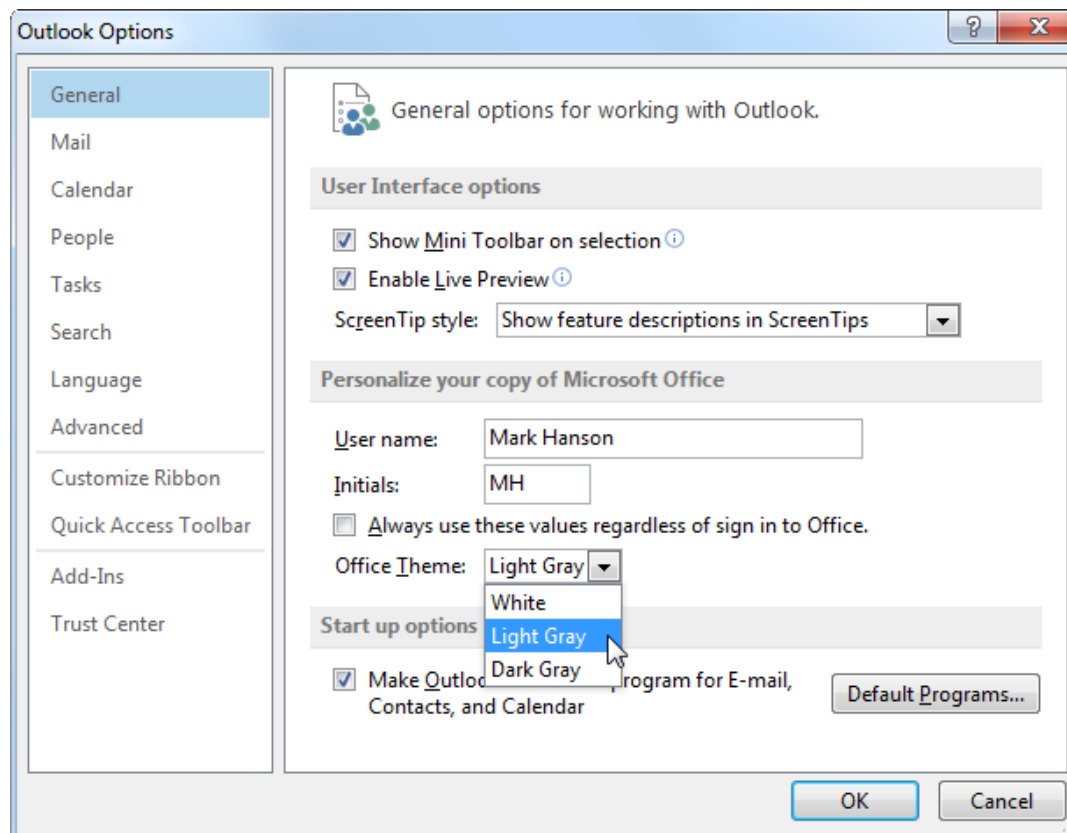

The To-Do Bar displays the date navigator, your appointments, people, and your task list.

## Change the Office Theme

We've redesigned Office 2013 to provide a clean, uncluttered experience — like a blank piece of paper. If you want to see the different areas of Outlook more distinctly, you can change the Office Theme.

Use your **File > Office Account** settings to change the Office 2013 color scheme for all of your computers, or use the **Outlook Options** to change the color scheme on just this computer. You can choose from **White**, **Light Gray**, or **Dark Gray**.

# Outlook 2013

## Mail isn't the half of it

Communication is important, but your time is important, too. Outlook 2013 has updated how you manage your time, your people, and your tasks.

### Plan for the weather

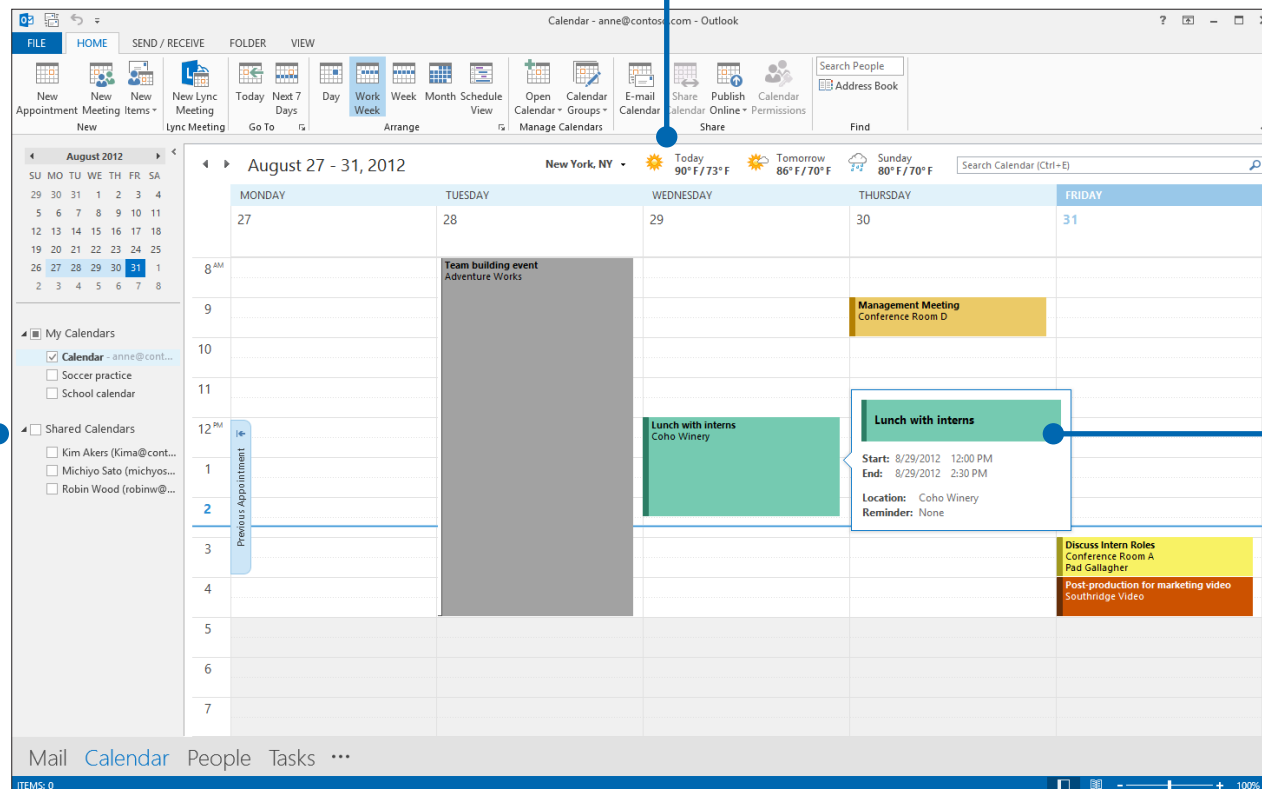

Glance at the forecast for your city and up to four others. When you plan an out-of-town meeting, you'll know what to pack.

### View other people's calendars

Quickly see the best times to schedule a meeting with others.

### Peek

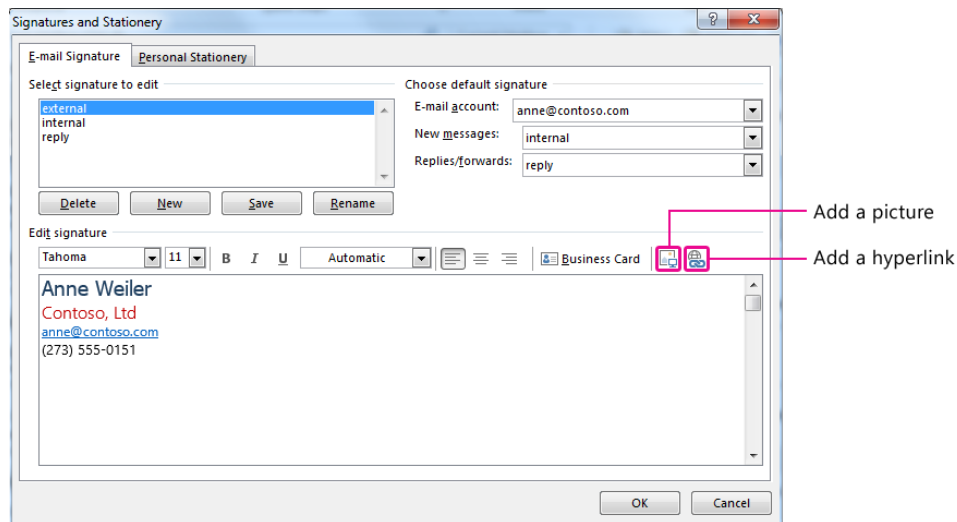

Mouse over a meeting or an appointment to see its details.

## Create an email signature

To create a new email signature, do the following:

1. Click **File > Options > Mail**. Under **Compose messages**, click **Signatures**.
2. In the **E-mail Signature** tab, click **New**, and then type a name for the signature.
3. In the **Edit signature** box, type the text that you want to include in the signature, then use the built-in tools to format it.

If you've already created a signature, you can copy it from one of your sent messages and then paste it here.

## Automatically add a signature to messages

To automatically add a signature to new email messages, do the following:

1. From any view, click **File > Options > Mail**. Under **Compose messages**, click **Signatures**.
2. Under **Choose default signature**, choose the signature to add to **New Messages**. If you want, choose a different signature for **Replies/forwards**.
3. To manually add a signature to a new message, from a new message, on the **Message** tab, in the **Include** group, click **Signature**, and then click the signature that you want.
