Passengers with disabilities need to show a PSTA-issued photo ID that can be obtained by applying for the program.

DART

PSTA provides DART shared ride, door-to-door service for people who, because of their disability, are unable to independently use the regular accessible buses.

DART eligibility is not determined by the type of disability or a specific diagnosis; it is determined by the passenger's ability to do such things as travel to a bus stop, board a bus, and navigate the regular bus system. One-on-one interviews and functional assessments are often used to help determine eligibility.

Service is provided by a select list of contractors who use sedans and wheelchair-accessible vans. DART is a form of public transportation that operates in the same areas and at the same times as bus service. Advance reservations are required, and a co-pay of up to twice the regular bus fare is charged for each one-way trip.

If you have a disability (either permanent or temporary) and are unable to independently use the regular, wheelchair-accessible PSTA buses, obtain a DART program application form by calling PSTA at (727) 540-1800 or visiting www.PSTA.net.
