CULTURE IN THE CLASSROOM

Field Trips, Tours, In-School Programs & More!
Member organizations collaborate with the Professional Development Department of Pinellas County Schools to provide teachers with workshops and seminars that include techniques to reach and teach all students.

The members of the Education Consortium invite you to take part in the rich cultural adventures that await you and your students and to experience the exciting learning offered from Tarpon Springs to St. Petersburg and all points in-between, including your classroom!
On the following pages you will find an exciting and diverse array of organizations ready to provide quality experiences in the arts, humanities and sciences for you and your students, as well as for families with members from toddlers to grandparents.

Performances, exhibitions, tours, hands-on learning, workshops, professional development and so much more await you as you meet the 27 arts and cultural organizations of the Education Consortium. From musical theater performances, to touch tanks at the Pier, from walking through the history of Pinellas County, to petting an oboe, from being immersed in Shakespeare, to standing in awe before a painting by one of the great masters, from learning about tragedy to learning about tolerance, there is a cultural learning experience for every teacher, every student and every member of our community.

All of the organizations highlighted in this brochure share the belief that the arts, sciences and humanities are critical to a complete education, to addressing every learning style and to enhancing the quality of life inside and outside the classroom. The positive impact of culture on self-esteem, self-confidence, creativity, problem solving and the development of skills needed for highest achievement in the classroom, on mandated tests and in the community have been demonstrated and documented by research throughout the country.

For your convenience, each page has contact information for the organization described there. To receive a brochure, schedule a field trip/tour, purchase tickets or for more information on programs and services contact the organization by phone, e-mail, U.S. mail or visit their website. Many organizations offer special workshops for teachers to assist in broadening teaching skills, using the arts as a teaching tool and integrating the arts, humanities and sciences into the life of the classroom.

Study guides and curriculum materials are prepared using the Sunshine State Standards and contain activities to assist teachers in preparing students for the FCAT and Florida Writes.

The Dunedin Fine Art Center offers several programs for all ages in the visual arts, including gallery exhibitions, studio fine art and craft classes, and the David L. Mason Children's Art Museum. A gift shop and café complete the cultural experience.

**Age Groups**
3 – 17

### Programs
- **An approved school tour site for Pinellas County.** The tours consist of three components which provide a well-rounded, age-appropriate cultural and educational experience.
- **The Gallery Experience:** Students begin with an engaging 30-45 minute gallery discussion involving science, history, social influence and impact, the principles and elements of design and creative problem solving -- presented in a humorous, engaging way.
- **Hands-on and Interactive:** Students proceed to the hands-on, interactive area where they explore, create and build on concepts and images from the current, original artworks seen in the gallery. Time in the hands-on area is 30-45 minutes.
- **Teacher-directed activity:** The remaining 30-minute component of the tour culminates as students gather in the art studio for a teacher-directed, exhibit-related activity. The total tour time is 2 hours, and the Dunedin Fine Art Center offers a discounted fee per student. Sunshine State Standards and FCAT Standards can easily be identified and correlated to all three stages of the tours.
