23. CERTIFICATE OF INSURANCE:

The contractor must provide a Certificate of Insurance in accordance with Insurance Requirements, Section C, prior to issuance of Purchase Order or commencement of any work hereunder.

24. PROCUREMENT POLICY FOR RECYCLED MATERIALS:

Pinellas County wishes to encourage its bidders to use recycled products in fulfilling contractual obligations to the County and that such a policy will serve as a model for other public entities and private sector companies.

When awarding a purchase of \$5000 or less, or recommending a purchase in excess of \$5000 for products, materials, or services, the Director of Purchasing may allow a preference to a responsive bidder who certifies that their product or material contains the greatest percentage of postconsumer material. If they are bidding on paper products they must certify that their materials and/or products contain at least the content recommended by the EPA guidelines.

On all bids over fifty thousand dollars (\$50,000) and formal quotes under fifty thousand dollars (\$50,000), or as required by law, the Director of Purchasing shall require vendors to specify which products have recycled materials, what percentage or amount is postconsumer material, and to provide certification of the percentages of recycled materials used in the manufacture of goods and commodities procured by the County.

Price preference is not the preferred practice the County wishes to employ in meeting the goals of this resolution. If a price preference is deemed to serve the best interest of the County and further supports the purchase of recycled materials, the Director of Purchasing will make a recommendation that a price preference be allowed up to an amount not to exceed 10% above the lowest complying bid received.

DEFINITIONS:

Recovered Materials: Materials that have recycling potential, can be recycled, and have been diverted or removed from the solid waste stream for sale, use or reuse, by separation, collection, or processing.

Postconsumer Materials: Materials which have been used by a business or a consumer and have served their intended end use, and have been separated or diverted from the solid waste stream for the purpose of recycling, such as; newspaper, aluminum, glass containers, plastic containers, office paper, corrugated boxes, pallets or other items which can be used in the remanufacturing process.

25. ASBESTOS MATERIALS:

The contractor shall perform all work in compliance with Federal, State and local laws, statutes, rules, regulations and ordinances, including but not limited to the Department of Environmental Protection (DEP)'s asbestos requirements, 40 CFR Part 61, Subpart M, and OSHA Section 29 CFR 1926.58. Additionally, the contractor shall be properly licensed and/or certified for asbestos removal as required under Federal, State and local laws, statutes, rules, regulations and ordinances.

The County shall be responsible for filing all DEP notifications and furnish a copy of the DEP notification and approval for demolition to the successful contractor. The County will furnish a copy of the asbestos survey to the successful bidder. The contractor must keep this copy on site at all times during the actual demolition.

26. PAYMENT/INVOICES:

The bidder must specify on the Bid Summary form exactly the company name and address which must be the same as invoices submitted for payment as a result of award of this bid. Further, the successful bidder is responsible for immediately notifying the Purchasing Department of any company name change, which would cause invoicing to change from the name used at the time of the original bid. Payment will be made, in arrears, in accordance with Fla. Stat. § 218.70, et. seq., the Local Government Prompt Payment Act.

SECTION A - GENERAL CONDITIONS - CONTINUED**27. CANCELLATION:**

- (b) Failure of the contractor to comply with any of the provisions of this contract shall be considered a material breach of contract and shall be cause for immediate termination of the contract at the discretion of Pinellas County.
- (c) In the event sufficient budgeted funds are not available for a new fiscal period, the County shall notify the vendor of such occurrence and contract shall terminate on the last day of current fiscal period without penalty or expense to the County.

In the event of a corporate acquisition and/or merger, the Contractor shall provide written notice to the County within thirty (30) business days of Contractor's notice of such action or upon the occurrence of said action, whichever occurs first. The right to terminate this contract, which shall not be unreasonably exercised by the County, shall include, but not be limited to, instances in which a corporate acquisition and/or merger represent a conflict of interest or are contrary to any local, state, or federal laws. Action by the County awarding a bid to a bidder that has disclosed its intent to assign or subcontract in its response to the ITB, without exception shall constitute approval for purposes of this Agreement.

SECTION A - GENERAL CONDITIONS - CONTINUED**33. EXCEPTIONS:**

Contractor is advised that if it wishes to take exception to any of the terms contained in this Bid or the attached service agreement it must identify the term and the exception in its response to the Bid. Failure to do so may lead County to declare any such term non-negotiable. Contractor's desire to take exception to a non-negotiable term will not disqualify it from consideration for award.

34. NON-EXCLUSIVE CONTRACT:

Award of this Contract shall impose no obligation on the County to utilize the vendor for all work of this type, which may develop during the contract period. This is not an exclusive contract. The County specifically reserves the right to concurrently contract with other companies for similar work if it deems such action to be in the County's best interest. Such actions may cause any request for proposal, request for qualification, bid or contract to be rejected.

SECTION E - SPECIFICATIONS

Bid Title: Corrosion Inhibitor - Utilities
Bid Number: 089-0327-B (LN)

1. **General:** The purpose of this bid is to establish a contract for the purchase of **Corrosion Inhibitor** to be ordered as and when required for use by Pinellas County Utilities, herein referred to as County.

Minimum Standards: The product must be certified to meet NSF Standard 60 Direct Additives for Drinking Water and shall be found to be acceptable for potable use in Florida by State regulatory agencies.

2. **Background:** Pinellas County Utilities has successfully used a blended phosphate corrosion inhibitor in the potable distribution system since 1991. Pinellas County Utilities continues to achieve optimized corrosion control under the Lead & Copper Rule (LCR), qualifies for reduced triennial monitoring at LCR sites and continues to lower heavy metals concentrations in wastewater sludge for lead and copper. It is the intent of PCU to purchase only corrosion inhibitors that have demonstrated performance during testing under PCU water quality conditions.
3. **AECOM Pre-Qualification Study 2008:** Corrosion Inhibitor testing was conducted by Architectural, Engineering, Construction Management, Operation and Maintenance (AECOM) on four inhibitor products from June through August, 2008. Products which performed satisfactorily in all phases of the study as determined by AECOM are appropriate for use in the Pinellas County distribution system.
4. **Acceptable Products:** Product should be dosed at 1 mg/L (one milligram per liter) total phosphate as PO₄.

These products are:

- Pristine Water Solutions SK 7641 (product currently used by PCU),
- Pristine Water Solutions SK 7631
- Carus Phosphates, Inc. AquaMag 9500

Bids will be accepted on these three products only. Product formulation must be as tested by AECOM during the three phases of the 2008 Corrosion Inhibitor Pre-Qualification Study. Product formulation may not be changed during the contract period.

5. **Bidder Qualifications:** Corrosion Inhibitor is a direct additive used in the treatment of potable water. This material must be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with ANSI/NSF Standard 60 Drinking Water Treatment Chemicals-Health Effects. The accredited certification organization shall ascertain whether the Bidder's product is in compliance with this specification for available Corrosion Inhibitor. The results of this analysis must be included in the Bid Package for bid to be considered complete. The cost of the analysis shall be **borne by Bidder**. Failure to submit a sample or meet the requirements of the Specification shall result in Bidder being non-responsive to the bid.
6. **Corrosion Inhibitor Performance:** Distribution system performance will be measured by copper and lead analysis, distribution system and plant coupon analysis, microbiological analysis, and system tests for PO₄ and total phosphate. These tests will be performed and results evaluated by the County to determine acceptable performance. General system conditions such as discolored water, plumbing failure rates, customer complaints and other reports indicating system conditions will also be considered. Acceptable performance can generally be defined as corrosion inhibition equal to or better than the current inhibitor as measured by the above referenced indices. Trends or single events outside normally observed variations around baseline data in one or more of these indices as determined by PCU may constitute sufficient grounds for termination of the contract.

7. **Product and Carrier Tank Truck Requirements:**
