SUBJECT: Final Ranking Recommendation of Request for Proposal (RFP) 145-0035-NC (SS) Engineering Consulting Services - Cross Bayou Canal Flood Control Improvements

DATE: March 25, 2015

On February 27, 2015, the evaluation committee met to evaluate written proposals received for Request for Professional Services 145-0035-NC (SS) Engineering Consulting Services - Cross Bayou Canal Flood Control Improvements and determined the three highest ranking firms that would be evaluated for oral presentations. On March 20, 2015, the evaluation committee met to hear oral presentations from the three highest ranking firms from the written the proposals.

The Selection Committee agrees with the final ranking of firms and in coordination with the Planning & Design Division, it is recommended that staff move forward with contract discussions with King Engineering Associates, Inc., the No. 1 ranked firm for the services described in the above subject RFP
