TO: ALL INTERESTED PROPOSERS

REQUEST FOR PROPOSAL: Curlew Creek and Smith Bayou Watershed Evaluation and Management Plan

PROPOSAL NUMBER: 145-0425-NC (SS)

PROPOSAL SUBMITTAL IS DUE: December 1, 2015 @ 3:00 P.M.

ADDENDUM NO. 1

Following is additional information, clarifications, questions and responses relative to referenced Request for Proposal (RFP):

QUESTION:

On Page 22/26, Paragraph D, the fourth bullet states:

“The firm or team shall demonstrate that they have completed a minimum of two (2) watershed management plans in accordance with SWFWMD standards within the last five (5) years.”

A watershed management plan consists of several components including: watershed evaluation, floodplain analysis, level of service analysis, surface water resource assessment (water quality analysis) and best management practices (BMP) analysis. Often the time to deliver these services from watershed evaluation to BMPs exceeds five years. As such can you please clarify if the County is looking for at least 2 watershed management plans inclusive of services to deliver a watershed evaluation through BMPs or is it acceptable to demonstrate experiences that fulfill completion of the relative components for different watersheds given the 5-year time frame?

RESPONSE:

It is acceptable to demonstrate experience that fulfills completion of the relative components of a watershed management plan for at least 2 watersheds within a 5year time frame.

All other specifications, terms and conditions remain the same.

Please remember to acknowledge receipt of this Addendum in Section G, Page 25 under Addendum No.1 and return with completed proposal package.

Sincerely,

Joseph Lauro, CPPO/CPPB
Director of Purchasing
