SECTION A - GENERAL CONDITIONS

25. DISPUTE RESOLUTION FOR PINELLAS COUNTY BOARD OF COUNTY COMMISSIONERS IN MATTERS OF INVOICE PAYMENTS:

Payment of invoices for work performed for Pinellas County Board of County Commissioners (County) is made, by standard, in arrears in accordance with Section 218.70, et. seq., Florida Statutes, the Local Government Prompt Payment Act.

If a dispute should arise as a result of non-payment of a payment request or invoice the following Dispute Resolution process shall apply:

A. Pinellas County shall notify a vendor in writing within ten (10) days after receipt of an improper invoice, that the invoice is improper. The notice should indicate what steps the vendor should undertake to correct the invoice and resubmit a proper invoice to the County. The steps taken by the vendor shall be that of initially contacting the requesting department to validate their invoice and receive a sign off from that entity that would indicate that the invoice in question is in keeping with the terms and conditions of the agreement. Once sign off is obtained, the vendor should then resubmit the invoice as a "Corrected Invoice" to the requesting department which will initiate the payment timeline.

1 Requesting department for this purpose is defined as the County department for whom the work is performed.

2 Proper invoice for this purpose is defined as an invoice submitted for work performed that meets prior agreed upon terms or conditions to the satisfaction of Pinellas County.

B. Should a dispute result between the vendor and the County about payment of a payment request or an invoice then the vendor should submit their dissatisfaction in writing to the Requesting Department. Each Requesting Department shall assign a representative who shall act as a "Dispute Manager" to resolve the issue at departmental level.

C. The Dispute Manager shall first initiate procedures to investigate the dispute and document the steps taken to resolve the issue in accordance with section 218.76 Florida Statutes. Such procedures shall be commenced no later than forty-five (45) days after the date on which the payment request or invoice was received by Pinellas County, and shall not extend beyond sixty (60) days after the date on which the payment request or invoice was received by Pinellas County.

D. The Dispute Manager should investigate and ascertain that the work, for which the payment request or invoice has been submitted, was performed to Pinellas County's satisfaction and duly accepted by the Proper Authority. Proper Authority for this purpose is defined as the Pinellas County representative who is designated as the approving authority for the work performed in the contractual document. The Dispute Manager shall perform the required investigation and arrive at a solution before or at the sixty (60) days timeframe for resolution of the dispute, per section 218.76, Florida Statutes. The County Administrator or his or her designee shall be the final arbiter in resolving the issue before it becomes a legal matter. The County Administrator or his or her designee will issue their decision in writing.

E. Pinellas County Dispute Resolution Procedures shall not be subject to Chapter 120 of the Florida Statutes. The procedures shall also, per section 218.76, Florida Statutes, not be intended as an administrative proceeding which would prohibit a court from ruling again on any action resulting from the dispute.

F. Should the dispute be resolved in the County's favor interest charges begin to accrue fifteen (15) days after the final decision made by the County. Should the dispute be resolved in the vendor's favor the County shall pay interest as of the original date the payment was due.

G. For any legal action to recover any fees due because of the application of sections 218.70 et. seq., Florida Statutes, an award shall be made to cover court costs and reasonable attorney fees, including those fees incurred as a result of an appeal, to the prevailing party. If it is found that the non-prevailing party held back any payment that was the reason for the dispute without having any reasonable lawful basis or fact to dispute the prevailing party's claim to those amounts.

SECTION F – INSTRUCTIONS FOR SUBMITTING PROPOSAL

Proposal Title: Proposal Title: BECKETT BRIDGE PROJECT DEVELOPMENT & ENVIRONMENT STUDY
Proposal Number: 101-0131-NC (AM)

A. OBJECTIVE:

The purpose of the contract is to engage a consultant engineering firm to perform all professional engineering and architectural services needed to develop a Project Development and Environment (PD&E) Study. Since Federal grants have been applied for, the study would need to meet all National Environmental Policy Act (NEPA) requirements (**See Attachment 2 which shall apply to the final agreement**). The PD&E study will evaluate various alternatives including; no build, removal or replacement of the Beckett Bridge over Whitcomb Bayou. The project includes roadway improvements, as necessary, for the approaches to the bridge. The project limits are from Chesapeake Drive to Forest Avenue resulting in a project length of approximately 0.31 mile.

B. BACKGROUND:

The Beckett Bridge over Whitcomb Bayou (Bridge No. 154000) is located in the City of Tarpon Springs in Pinellas County. This facility provides access to and from the mainland for contiguous coastal communities. This facility is also used as an evacuation route, providing access to major arterials in the County, such as Alternate US 19 and US 19.

The structure is located in the City; however, it is maintained and operated by Pinellas County. The drawbridge currently provides the only access for various sailboats docking on Whitcomb Bayou. This drawbridge is not permanently tended by a bridge tender. Openings are provided by County staff on a per call basis.

This 360 ft. long drawbridge, originally constructed in 1924 and reconstructed in 1963 and 1997, consists of 9 - 32 ft. long (average) concrete approaches, and a center single leaf bascule span, 40 feet long over the channel. The bridge has a sufficiency rating of 44.9, and it has been classified by the Florida Department of Transportation (FDOT) as functionally obsolete. The mechanical and electrical systems are obsolete, and require considerable maintenance by County staff. The concrete approaches have nearly reached their intended 50-year design service life.

C. SCOPE OF WORK:

The County requires the support of a Consultant Engineering firm to conduct a Project Development & Environmental Study in conformance with the class of action determination issued as a result of the Efficient Transportation Decision Making process and meeting all appropriate NEPA requirements.

b) Required Deliverables

All documents; including reports, aerials, exhibits and plans necessary to achieve NEPA compliance.

c) Timelines

The consultant shall be responsible for preparation of an alternative analysis for no build, removal, reconstruction or replacement. Additionally, the consultant shall provide the cost of each alternative for design, construction and future maintenance. A schedule is required for any design alternative or traffic study to evaluate the no build option and impact to traffic flow and the community. The Consultant shall have no longer than 18 months following Notice to Proceed to complete the project.

d) Budget Estimate

The County has an estimated project budget of \$750,000.00

1. Please provide a Timeline and information that will demonstrate the firm's willingness and ability to meet schedule and budget requirements (See Section B, page 8, Evaluation Criteria 3b, and provide response in TAB 6).
2. Please provide information that will reflect the effect of the firm's current and projected workload (See Section B, page 9, Evaluation Criteria 3e, and provide response in TAB 6).

(c) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice architecture, engineering, or surveying and mapping in the state.

(d) "Compensation" means the total amount paid by the agency for professional services.

(e) "Agency official" means any elected or appointed officeholder, employee, consultant, person in the category of other personal service or any other person receiving compensation from the state, a state agency, municipality, or political subdivision, a school district or a school board.

2. A grouping of substantially similar construction, rehabilitation, or renovation activities.

(g) A "continuing contract" is a contract for professional services entered into in accordance with all the procedures of this act between an agency and a firm whereby the firm provides professional services to the agency for projects in which estimated construction costs of each individual project under the contract does not exceed \$2 million, for study activity if the fee for professional service for each individual study under the contract does not exceed \$200,000, or for work of a specified nature as outlined in the contract required by the agency, with the contract being for a fixed term or with not time limitation except that the contract must provide a termination clause. Firms providing professional services under continuing contracts shall not be required to bid against one another.

(h) A "design-build firm" means a partnership, corporation, or other legal entity that:

1. Is certified under s. 489.119 to engage in contracting through a certified or registered general contractor or a certified or registered building contractor as the qualifying agent; or

(i) A "design-build contract" means a single contract with a design-build firm for the design and construction of a public construction project.

(j) A "design criteria package" means concise, performance-oriented drawings or specifications of the public construction project. The purpose of the design criteria package is to furnish sufficient information to permit design-build firms to prepare a bid or a response to an agency's request for proposal, or to permit an agency to enter into a negotiated design-build contract. The design criteria package must specify performance-based criteria for the public construction project, including the legal description of the site, survey information concerning the site, interior space requirements, material quality standards, schematic layouts and conceptual design criteria of the project, cost or budget estimates, design and construction schedules, site development requirements, provisions for utilities, stormwater retention and disposal, and parking requirements applicable to the project.

(3) PUBLIC ANNOUNCEMENT AND QUALIFICATION PROCEDURES.--

(a) Each agency shall publicly announce, in a uniform and consistent manner, each occasion when professional services must be purchased for a project the basic construction cost of which is estimated by the agency to exceed the threshold amount provided in s. 287.017 for CATEGORY FIVE (\$250,000) or for a planning or study activity when the fee for professional services exceeds the threshold amount provided in s. 287.017 for CATEGORY TWO (\$25,000), except in cases of valid public emergencies certified by the agency head. The public notice must include a general description of the project and must indicate how interested consultants may apply for consideration.

(b) Each agency shall encourage firms engaged in the lawful practice of their professions that desire to provide professional services to the agency to submit annually statements of qualifications and performance data.

(c) Any firm or individual desiring to provide professional services to the agency must first be certified by the agency as qualified pursuant to law and the regulations of the agency. The agency must find that the firm or individual to be employed is fully qualified to render the required service. Among the factors to be considered in making this finding are the capabilities, adequacy of personnel, past record, and experience of the firm or individual.

(d) Each agency shall evaluate professional services, including capabilities, adequacy of personnel, past record, experience, whether the firm is a certified minority business enterprise as defined by the Florida Small and Minority Business Assistance Act of 1985, and other factors determined by the agency to be applicable to its particular requirements. When securing professional services, an agency must endeavor to meet the minority business enterprise procurement goals under s. 287.09451.

(e) The public must not be excluded from the proceedings under this section.

(4) COMPETITIVE SELECTION.--

(a) For each proposed project, the agency shall evaluate current statements of qualifications and performance data on file with the agency, together with those that may be submitted by other firms regarding the proposed project, and shall conduct discussions with, and may require public presentations by, no fewer than three firms regarding their qualifications, approach to the project, and ability to furnish the required services.

(b) The agency shall select in order of preference no fewer than three firms deemed to be the most highly qualified to perform the required services. In determining whether a firm is qualified, the agency shall consider such factors as the ability of professional personnel; whether a firm is a certified minority business enterprise; past performance; willingness to meet time and budget requirements; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm by the agency, with the object of effecting an equitable distribution of contracts among qualified firms, provided such distribution does not violate the principle of selection of the most highly qualified firms. The agency may request, accept, and consider proposals for the compensation to be paid under the contract only during competitive negotiations under subsection (5).

(c) This subsection does not apply to a professional service contract for a project the basic construction cost of which is estimated by the agency to be not in excess of the threshold amount provided in s. 287.017 for CATEGORY FIVE (\$250,000) or for a planning or study activity when the fee for professional services is not in excess of the threshold amount provided in s. 287.017 for CATEGORY TWO (\$25,000).

(d) Nothing in this act shall be construed to prohibit a continuing contract between a firm and an agency.

(5) COMPETITIVE NEGOTIATION.--

(a) The agency shall negotiate a contract with the most qualified firm for professional services at compensation which the agency determines is fair, competitive, and reasonable. In making such determination, the agency shall conduct a detailed analysis of the cost of the professional services required in addition to considering their scope and complexity. For any lump-sum or cost-plus-a-fixed-fee professional service contract over the threshold amount provided in s. 287.017 for CATEGORY FOUR (\$150,000), the agency shall require the firm receiving the award to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current at the time of contracting. Any professional service contract under which such a certificate is required must contain a provision that the original contract price and any additions thereto will be adjusted to exclude any significant sums by which the agency determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments must be made within 1 year following the end of the contract.

b) Should the agency be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a price the agency determines to be fair, competitive, and reasonable, negotiations with that firm must be formally terminated. The agency shall then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the agency must terminate negotiations. The agency shall then undertake negotiations with the third most qualified firm.

(c) Should the agency be unable to negotiate a satisfactory contract with any of the selected firms, the agency shall select additional firms in the order of their competence and qualification and continue negotiations in accordance with this subsection until an agreement is reached.

(6) PROHIBITION AGAINST CONTINGENT FEES.--

(a) Each contract entered into by the agency for professional services must contain a prohibition against contingent fees as follows: "The architect (or registered surveyor and mapper or professional engineer, as applicable) warrants that he or she has not employed or retained any company or person, other than a bona fide employee working solely for the architect (or registered surveyor and mapper, or professional engineer, as applicable) to solicit or secure this agreement and that he or she has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the architect (or registered surveyor and mapper or professional engineer, as applicable) any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this agreement." For the breach or violation of this provision, the agency shall have the right to terminate the agreement without liability and, at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

(b) Any individual, corporation, partnership, firm, or company, other than a bona fide employee working solely for an architect, professional engineer, or registered land surveyor and mapper, who offers, agrees, or contracts to solicit or secure agency contracts for professional services for any other individual, company, corporation, partnership, or firm and to be paid, or is paid, any fee, commission, percentage, gift, or other consideration contingent upon, or resulting from, the award or the making of a contract for professional services shall, upon conviction in a competent court of this state, be found guilty of a first degree misdemeanor, punishable as provided in s. 775.082 or s. 775.083.

(c) Any architect, professional engineer, or registered surveyor and mapper, or any group, association, company, corporation, firm, or partnership thereof, who offers to pay, or pays, any fee, commission, percentage, gift, or other consideration contingent upon, or resulting from, the award or making of any agency contract for professional services shall, upon conviction in a state court of competent authority, be found guilty of a first degree misdemeanor, punishable as provided in s. 775.082 or s. 775.083.

(d) Any agency official who offers to solicit or secure, or solicits or secures, a contract for professional services and to be paid, or is paid, any fee, commission, percentage, gift, or other consideration contingent upon the award or making of such a contract for professional services between the agency and any individual person, company, firm, partnership, or corporation shall, upon conviction by a court of competent authority, be found guilty of a first degree misdemeanor, punishable as provided in s. 775.082 or s. 775.083.

SECTION E – SCOPE OF WORK

Proposal Title: BECKETT BRIDGE PROJECT DEVELOPMENT & ENVIRONMENT STUDY

Proposal Number: 101-0131-NC (AM)

A. OBJECTIVE:

The purpose of the contract is to engage a consultant engineering firm to perform all professional engineering and architectural services needed to develop a Project Development and Environment (PD&E) Study. Since Federal grants have been applied for, the study would need to meet all National Environmental Policy Act (NEPA) requirements (**See Attachment 2 which shall apply to the final agreement**). The PD&E study will evaluate various alternatives including; no build, removal or replacement of the Beckett Bridge over Whitcomb Bayou. The project includes roadway improvements, as necessary, for the approaches to the bridge. The project limits are from Chesapeake Drive to Forest Avenue resulting in a project length of approximately 0.31 mile.

The consultant must be pre-qualified by FDOT in 2.0 Project Development (PD&E) Studies and either 4.0 Movable span Bridge Design, or 4.2 Major Bridge Design.

B. BACKGROUND:

The Beckett Bridge over Whitcomb Bayou (Bridge No. 154000) is located in the City of Tarpon Springs in Pinellas County. This facility provides access to and from the mainland for contiguous coastal communities. This facility is also used as an evacuation route, providing access to major arterials in the County, such as Alternate US 19 and US 19.

The structure is located in the City; however, it is maintained and operated by Pinellas County. The drawbridge currently provides the only access for various sailboats docking on Whitcomb Bayou. This drawbridge is not permanently tended by a bridge tender. Openings are provided by County staff on a per call basis.

This 360 ft. long drawbridge, originally constructed in 1924 and reconstructed in 1963 and 1997, consists of 9 - 32 ft. long (average) concrete approaches, and a center single leaf bascule span, 40 feet long over the channel. The bridge has a sufficiency rating of 44.9, and it has been classified by the Florida Department of Transportation (FDOT) as functionally obsolete. The mechanical and electrical systems are obsolete, and require considerable maintenance by County staff. The concrete approaches have nearly reached their intended 50-year design service life.

C. SCOPE OF WORK:

The County requires the support of a Consultant Engineering firm to conduct a Project Development & Environmental Study in conformance with the class of action determination issued as a result of the Efficient Transportation Decision Making process and meeting all appropriate NEPA requirements. **All reasonable alternative should be considered by the consultant during the PD&E.**

a) Required Deliverables

All documents; including reports, aerials, exhibits and plans necessary to achieve NEPA compliance.

b) Timelines

The consultant shall be responsible for preparation of an alternative analysis for no build, removal, reconstruction or replacement. Additionally, the consultant shall provide the cost of each alternative for design, construction and future maintenance. A schedule is required for any design alternative or traffic study to evaluate the no build option and impact to traffic flow and the community. The Consultant shall have no longer than 18 months following notice to proceed to complete the project.

c) Budget Estimate

The County has an estimated project budget of \$750,000.00

1. Please provide a Timeline and information that will demonstrate the firm's willingness and ability to meet schedule and budget requirements (See Section B, page 8, Evaluation Criteria 3b, and provide response in TAB 6).
2. Please provide information that will reflect the effect of the firm's current and projected workload (See Section B, page 9, Evaluation Criteria 3e, and provide response in TAB 6).
3. Please provide a "Project Approach" in Tab 6 which will be scored under evaluation criteria: "Ability of Firm and its Professional Personnel" (see Section B, page 8 of the RFP).
