

Pinellas County Kit for Civil 3D 2020 Frequently Asked Questions

1. **What is the Pinellas County Kit for Civil 3D?**

The Pinellas County Kit is a group of resource and customization files for Civil 3D that incorporate the Pinellas County CAD Standards into the software. This includes templates, CUI's, Styles, layer standards, line types, plot styles, parts networks, and pay items.

2. **Where can I download the kit from?**

[RIGHT HERE](#)

3. **What are the pre-requisites?**

The Pinellas County kit for Civil 3D is designed to be centralized on a network share and has several dependencies to function properly.

Prior to launching the Pinellas County Civil 3D icon, make sure the following products are installed in the following order:

1. Corresponding version of Civil 3D with all updates and service packs
2. Corresponding version of Raster Design with all updates and service packs
3. Corresponding version of the FDOT State Kit with all updates and service packs

This kit was designed and tested on systems running 64 bit versions of Windows 7 Professional and Civil 3D. For detailed install instructions click here – [Installation Instructions](#)

4. **Who do I contact if I have problems installing the kit or the functionality of the kit?**

[Click Here](#)

5. **How will I find out about new releases?**

Check the [Pinellas County Web site](#) or register your email address to be notified.

6. **Do Consultants and Contractors need to convert existing projects currently under design?**

This will need to be addressed on a project by project basis. Please contact your Project Manager for further direction.

7. **When will the Consultants and Contractors need to comply with the County CADD Kit?**

The Pinellas County CADD Kit will apply to all projects.
