

FLORIDA BICYCLE LAWS & SAFETY TIPS

BICYCLISTS

Wear a bicycle helmet.

Check your bike – air pressure, brakes, chain, seat and handlebars.

Ride on the right in the same direction as traffic.

Obey all traffic control and signals.

Wear light or brightly colored clothes to be most visible.

Yield to pedestrians.

Never wear headphones while riding – it is illegal and impairs your ability to hear traffic.

Avoid bicycling at night – many trails are closed at night, such as the Fred Marquis Pinellas Trail, Progress Energy Trail. If you must ride in the dark:

- Wear reflective clothing or accents – not just white or florescent – especially on ankles, wrists, back and helmet.
- Use reflectors. Use bright lights on the front and back of the bike. Ride on brightly lit streets.
- Always assume you are not seen by a driver.
- Young children should never ride at night.

Stay alert – be aware of traffic around you, and always keep a lookout for obstacles in your path.

Look both ways for traffic before you enter any street or intersection. More than 70% of bicycle crashes occur at driveways or intersections.

One seat = one rider.

Give bicyclists 3-feet (minimum) when passing!

Pedestrians have the right of way in a crosswalk – take note of pedestrian or school crosswalk signs indicating a crosswalk is ahead.

Take extra precautions before backing up.

Never drink and drive! – designate a non-drinking driver before getting into a vehicle.

Remember, no texting while walking, biking or driving

MOTORISTS

Be alert – watch for pedestrians and bicycles. Be extra careful at intersections.

Obey all traffic laws – including speed limit and other road signs.

Scan your surroundings – anticipate upcoming traffic situations.

Signal your intentions before changing lanes or making a turn.
