1 How Do I Save Water?

(There's a Hole in My Bucket)

How do I save water, dear Louie, dear Louie
How do I save water, dear Louie, do tell!

Think when you use it, dear Dewey, dear Dewey
Think when you use it, dear Dewey, just think!

But how shall I do this, dear Louie, dear Louie
But how shall I do this, dear Louie, but how?

Don't take such long showers, dear Dewey, dear Dewey
Don't take such long showers, dear Dewey, cut back!

How else can I use less, dear Louie, dear Louie
How else can I use less, dear Louie, how else?

You can use reclaimed water, dear Dewey, dear Dewey
You can use reclaimed water, dear Dewey, reclaimed!

And how should I use it, dear Louie, dear Louie
And how should I use it, dear Louie, and how?

To water your plants with, dear Dewey, dear Dewey
To water your plants with, dear Dewey, your plants!

Can I drink reclaimed water, dear Louie, dear Louie?
Can I drink reclaimed water, dear Louie, can I?

No, it's just for your landscape, dear Dewey, dear Dewey
No, it's just for your landscape, dear Dewey, your plants!

Will it help me save water, dear Louie, dear Louie
Will it help me save water, dear Louie, will it?

Yes, it saves drinking water, dear Dewey, dear Dewey
Yes, it saves drinking water, dear Dewey, it saves!

2 We'll Be Using Reclaimed Water

(She'll Be Comin' 'Round the Mountain)

We'll be using reclaimed water when we're done
We'll be using reclaimed water when we're done.

We'll be using that old water.

We'll be using that old water.

We'll be using reclaimed water when we're done.

They take out all the bad stuff at the plants
Can they make us brand new water? No they can't.

But they take out all the bad stuff, and they add in all
the good stuff.

And it makes it even better for the planet.

We'll have brighter, greener gardens when we're done.

We'll have brighter, greener gardens when we're done.

Our parents saved our drinking water for all their sons
and daughters.

Another fight against pollution that we've won.

Our parents saved our drinking water for all their sons
and daughters.

Another fight against pollution that we've won.

3 Reclaimed Rap

(original score)

Reclaimed is the way to go if you want your yard to grow.
Purple pipes will let you know direction of the water flow.

**The Reclaimed Rap is where it's at for all you funky
water cats.**

Reclaimed means it's cleaned up juice—works
kinda' like a water sluice.

The Reclaimed Rap is where it's at for all you
funky water cats.

It's water that we use again from places where we know
we've been.

**The Reclaimed Rap is where it's at for all you funky
water cats.**

Don't say no to reclaim flow and watch your water savings
grow.

**The Reclaimed Rap is where it's at for all you funky
water cats.**

**The Reclaimed Rap is where it's at for all you funky,
funky water cats.**

4 Can-It! Save the Planet!

(original score)

If there's garbage around, all over the ground,
Can it! Save the planet!
If you've had something sweet, keep the wrapper
off the street.
Can it! Save the planet!

CHORUS:

**We like our water, and we like our air,
So don't throw garbage anywhere.
We put some things in a special bin.
That's called recycling!**

When your ice-pop's off the stick, get rid of it real
quick.
Can it! Save the planet!
When you're finished with the snack, for school
you did pack,
Can it! Save the planet!

CHORUS

It's important that you know what to do.
Can it! Save the planet!
Can it! Save the planet!
Oh, can it! Save the planet!

5 R-E-C-Y-C-L-E

(John Jacob Jingleheimer Schmidt))

R-E-C-Y-C-L-E
Learn to recycle.
Bottles, paper, cans, cardboard, plastic too.
Recycle's what you should do.
Re- Re- Re- Re- Recycle

(Softer)

R-E-C-Y-C-L-E
Learn to recycle.
Bottles, paper, cans, cardboard, plastic too.
Recycle's what you should do.
Re- Re- Re- Re- Recycle

(Louder)

R-E-C-Y-C-L-E
Learn to recycle.
Bottles, paper, cans, cardboard, plastic too.
Recycle's what you should do.
Re- Re- Re- Re- Recycle

(Repeat Softer)

Re- Re- Re- Re- Recycle
Re- Re- Re- Re- Recycle
Re- Re- Re- Re- Recycle!

6 Eco-Shopper

(original score)

CHORUS:

**Be an eco-shopper; you can be one like me.
You can make a difference if you shop wisely.
Eco-shoppers watch what they buy.
Learn environmental shopping—give it a try!**

Choose items with minimal packaging—choose the larger size.
Choose items that are refillable; with toxic substances,
minimize!
Buy longer lasting batteries; buy items you can reuse.
Buy recycled products—it's easy for you to choose.

CHORUS

When you buy recycled products, tell the store "Thank You."
Store owners like knowing it's what you want them to do.
You can learn to shop wisely, and others you can teach.
But what's most important, practice what you preach!

CHORUS

Eco-shop!

7 The Water Lies Over the Ocean

(My Bonnie Lies Over the Ocean)

The water lies over the ocean—the water lies under the ground
Over and over it cycles, from under the sands to the clouds.

CHORUS:

**Water! Water! I want to save water each day—my way!
Water! Water! And here's how I'll start it today!**

I'll turn off the water when brushing.
I'll take shorter showers at night.
I won't flush dead bugs down the toilet.
I'll listen for leaks to fix right.

CHORUS

I'll shut off the sprinklers in rain storms.
I'll turn off the hose when I'm done.
I'll watch how much water I'm using, and make saving water
real fun!
I'll think of cool ways to save water, and tell all my friends it's
not hard.
I won't waste a drop more of water, at home or at
school or earth's yard.

CHORUS

I want to save water each day!

8 Water, Water!

(Kookaburra)

Water water falls from the big blue sky
Helping things to grow that are so dry
Fall water water fall—water water spill your
drops on me!

Water water soaks into the ground
Into the dirt and down down down
Soak water water soak—water water down into
the ground.

Water water mists up to the sky
Makes the clouds all wet while the earth runs dry
Mist water water mist—water water way up in the sky.

Water water builds up in the sky
Gathers in the clouds where the eagles fly
Rain, water water rain—water water waiting in the sky.

Water water water everywhere
Want to conserve it 'cause we care
Save, water water save—water water so there's
enough to share.
Save, water water save—water water so there's
enough to share.

9 Where is Dewey?

(Frere Jacques)

Where is Dewey? Where is Dewey?
Here I am! Here I am!
Swimming in your bathtub—Shooting out your sprinkler!
Please save me! Please save me!
I am water! I am water!
Don't waste me! Don't waste me!
How can we conserve you? Listen and I'll tell you.
Help me please! Help me please!
Let's save Dewey! Let's save Dewey!
This is how—This is how!
Turn off all the faucets! Take a shorter shower!
Let's start now! Let's start now!
How do you save? How do you save?
Water drops—Water drops?
I don't let the hose run! I don't let the sink drip!
Dewey rocks! Dewey rocks!
Dewey's watching! Dewey's watching!
Every day! Every day!
Morning, noon, and midnight!
Wants you to do what's right.
Start today! Start today!

10 Recycling ABC's

(ABCs)

Take your cans and bottles down to the recycling center in town.
You can use a recycling bin, to put the recyclable items in.
Recycle, won't you please? Learn the recycling ABCs.
We'll take our cans and bottles down to the recycling center in town.
We can use a recycling bin, to put our recyclable items in.
We recycle and with ease, we've learned the recycling ABCs.

12 Recycling Blues

(Original Score)

CHORUS:

If you don't recycle baby, you know you're gonna give me the blues! (Gimme, gimme, give me the blues!)

If you don't recycle baby, you know you're gonna give me the blues! (Gimme, gimme, give me the blues!)

You gotta buy products you know you can reuse! (Reuse, reuse, reuse)

Everybody I know produces five pounds of garbage each day.
I do not!

Everybody I know produces five pounds of garbage each day.
No way!

It's better to recycle than just throw it away.

(Don't, don't throw it away)

Reduce, reuse, recycle and really recycle! (Really, really recycle!)

Reduce, reuse, recycle and really recycle! (Really, really recycle!)

Come on everybody, your own weight you must pull!

Come on baby, take a walk down eco street

Walk down eco street!

Come on baby, take a walk down eco street.

Walk down eco street!

Being economical and ecological is sweet!

CHORUS

13 We Recycle

(London Bridge)

We recycle newspapers, newspapers, newspapers.
We recycle newspapers to save our planet.
Newspapers make cereal boxes, cereal boxes, cereal boxes.
Newspapers make cereal boxes to save our planet.
We recycle plastic bottles, plastic bottles, plastic bottles.
We recycle plastic bottles to save our planet.
Plastic bottles make picnic tables, picnic tables, picnic tables.
Plastic bottles make picnic tables to save our planet.
We are going to use less stuff; use less stuff, use less stuff
We are going to use less stuff to save our planet.
To save our planet!
