Conserve Water and Save Money

Through The Ultra Low Flow Toilet Program

Rebates of **up to \$100** are being offered to customers who receive their water supply directly from Pinellas County Utilities or from the cities of Clearwater, Pinellas Park, Safety Harbor, and Tarpon Springs. In cooperation with the Southwest Florida Water Management District, Pinellas County Utilities is offering rebates to customers who replace their high flow toilets with ultra low flow 1.6-gallon toilets. Rebates are available to single family, multi-family, and commercial customers.

The program goal is to **save 2 million gallons per day** of potable water through the replacement of 93,000 high flow toilets over 5 years. Since August 2001, **over 50,000 rebates** have been issued!

For information on participating in this valuable water conservation program, prior to installation **please contact:**

Did You Know...

Depending on the extent of the leak, a warped or poorly fitting flapper can waste up to 200 gallons a day and may cost you hundreds of dollars a year.
