

HydroBlast Coloring Book

BOYS & GIRLS:

- Join **HydroBlaster**, and have a blast learning about how you can save water!

- You'll love **coloring all the great pictures** drawn by students just like you.

- Search for the **hidden water drop** on every page.
- Look for the rocket to find **fun activities and questions**.
- Create your own drawing on page 17, and we'll mail you a **special gift!**

PARENTS & TEACHERS:

This is a special coloring book because Pinellas County students created the drawings!

Our staff at Pinellas County Utilities asked students to design a t-shirt with a water conservation theme. Their drawings were so creative that we decided to turn them into a coloring book.

Using this book, your children will have fun while learning to save water.

This book is recommended for grades K-2. The activities are keyed to the Florida Sunshine State Standards for language arts, math, and science:

- LA.K-2.2.2.1: *Locates specific information in text.*
- LA.2.2.2.2: *Uses information to answer a question.*
- LA.K-2.3.2.1: *Writes or draws about a familiar experience, topic or text.*
- LA.K-2.3.5.1: *Produces, illustrates, and shares a finished piece of writing.*
- LA.K.4.2.1: *Creates a variety of informational forms through drawing.*
- MA.K.A.1.2; MA.1.A.1.4: *Uses counting strategies.*
- SC.K.N.1.4: *Observes and creates a visual representation of an object.*
- SC.1.E.6.1: *Recognizes that water is found on Earth's surface.*
- SC.1.E.6.2: *Describes the need for water.*
- SC.1-2.L.17.1: *Recognizes the basic necessity of water.*
