**Position (Non-Paid):** Floodplain Management & GIS intern  

**Department:** Public Works, Stormwater and Vegetation  

**Duties:** The focus of this student internship will be on floodplain and stormwater management tasks within Pinellas County. The majority of internship tasks will be quantifying development at varying levels of flood risk, developing datasets, public outreach, audit preparation, and creating or editing layers in a GIS. Office tasks will include managing the data collected in spreadsheets and in GIS. Students are likely to interact with the public and professionals while gaining experience with mapping, compliance, and/or regulatory eligibility.

**Location:** 14 S Fort Harrison Avenue  
Clearwater, FL 33756

**Schedule:** Flexible

**Skills/Experience/Training needed:** Geographic Information Systems (GIS), Microsoft Excel, National Flood Insurance Program (NFIP), Community Rating System (CRS), customer service.

**Contact:** Dylan Smith at 727-464-8934 or email

**How to Apply:** First contact the department to discuss the position. Then complete the brief internship application.
