|----------------------------------|--|
| <b>Position:</b>                 | <b>Foster Care Program</b>   |
| <b>Department:</b>               | <b>Animal Services</b>   |
| <b>Duties:</b>                   | Not quite ready to adopt a new cat or dog but interested in a short-term commitment? We have just the program for you. Our foster parents provide a safe and loving environment for kittens, puppies, dogs and cats until they are ready to be adopted. Our greatest foster needs are: mom cats with litters and orphaned kittens and litters. Fostering is flexible enough for most lifestyles and all veterinary care. Medication and care supplies are provided by Pinellas County Animal Services. The foster parent provides affection, we provide the rest. By taking one of our animals into your home on a temporary basis you provide that animal with a safe environment as they get ready to find a forever home. Ready to begin? |
