For assistance please contact the Operations Center at 453-4357 (453-HELP)

The following procedure is a one-time configuration. This process will install a client certificate on your computer and auto-configure your wireless profile.

If this is the first time you have onboarded to the county Enterprise Wireless Network, skip to step 5.

1. **Right-click the Wireless Icon on the taskbar near the clock and select Open Network and Sharing Center.**

2. **Click Manage Wireless Networks in the window that opens.**
3. Select Pinellas_Enterprise and then click Remove.

4. Click OK and then close the Network and Sharing Center window.
5. Click the wireless icon on your taskbar.
6. Click the Pinellas_Enterprise SSID
7. Click the **Connect** button.

8. Click the **Connect** button for this security alert. This may not occur for all users.
9. (Optional) Clicking on the wireless icon will show you’re connected. You’re **not** fully connected yet. **Please continue.**

![Wireless Network Connection](image)

1. **Click the wireless icon.** Notice the Connected status above.

10. Now launch Internet Explorer and browse to any website. You will be redirected to the following dialog and click **Start**.

    *If the redirect fails and you do not see the webpage below, enter http://1.1.1.1 into the address field of your browser.*

11. Enter your user ID as the Device Name and a simple description of the device you are connecting with as a description.
12. Click the Continue button.

13. Say Yes to the installation of any certificates.  
   NOTE: If you are prompted to delete a previous certificate first, confirm the deletion by clicking Yes.
You may now click exit. The configuration is complete!

If any issue should occur please contact the Operations Center for assistance at 3-4357 (3-HELP).
