

**Over-watering  
can  
actually  
Damage  
your  
Florida  
lawn!**

**Want A Healthy Lawn?...  
It Is Right At Your Fingertips!**

Pinellas County Utilities  
14 South Fort Harrison Avenue  
Clearwater, FL 33756

**Your Lawn  
May Have A  
Drinking  
Problem!**

# Fortunately, help is at your fingertips!

## Overwatering promotes:

**Remember: Overwatering can damage your lawn and hurt your investment.**

**To control pests, weeds and other lawn diseases, don't invest your money in expensive lawn rehabilitation, such as pesticides, fungicides and herbicides. Instead...follow this Healthy Lawn Rx:**

- Irrigate only as needed, once plants are established
- Establish a deep, drought-tolerant root system
- Don't throw water on a drowning plant
- The absolute last thing you want to do is irrigate a lawn wet from rainfall
- Use mulch and fertilizer properly
- Plant the right plant in the right place

### For More Information:

- Call **(727) 464-4000**, press "0" and tell the representative **"I want a healthy lawn."**
