**PINELLAS COUNTY  
ADMINISTRATIVE DIRECTIVE**

*Pinellas County Office Paper Recycling Program*

---

**SUMMARY:**

Since 1987, Pinellas County has been recycling office paper in some of its buildings. The program is now in all County buildings and County employees should participate in the program. All county employees with a desk have their own desk side recycling bin for office paper. Large blue bins are placed next to photo copiers.

Pinellas County has limited disposal capacity and recycling extends the life of the County's incinerator and landfill. Participating in the office paper recycle will conserve resources and support sustainability.

The County's Office Paper Recycling goal is 100% employee participation.

Please see the County's recycling program link for more information on all the office recycling programs.
