Claims Case Manager, RN

Category: Classified/Excluded
Pay Grade: C31
Job Code: 15890

To perform this job successfully, an individual must be able to perform the essential job functions satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the primary job functions herein described. Since every duty associated with this position may not be described herein, employees may be required to perform duties not specifically spelled out in the job description, but which may be reasonably considered to be incidental in the performing of their duties just as though they were actually written out in this job description.

**JOB SUMMARY**

This is professional case management work performed by a licensed registered nurse managing State of Florida Workers Compensation and bodily injury program processes on behalf of Pinellas County Government. The incumbent ensures effective delivery of comprehensive workers compensation medical claims management services and support. Tasks and assignments require the incumbent to complete extensive telephone, personal computer systems tracking and field case management on behalf of Pinellas County Government. The incumbent provides initial and ongoing clinical assessments for on the job injury case management and maintains regular contact with physicians, other medical providers, injured employees, and supervisors. The incumbent defines strategies on medical management and completes professional assessments used to manage medical and disability exposure and return to work opportunities. Substantial time is required performing Pinellas County’s workforce case management via telephonic and computer contacts with parties although some work occurs at worker field locations. The incumbent works extensively to manage Florida workers compensation injuries which include telephonic and field work with a strong understanding of the Heart/Lung Bill applicable to law enforcement personnel. The incumbent will also be required to complete case assessments for worker’s compensation and bodily injury claims asserted by third parties. The incumbent must apply advanced professional nursing principles and techniques to a wide variety of patient care problems and situations. The incumbent completes professional nursing assignments and makes nursing decisions independently without any direct professional supervision; however, the position does report administratively to a senior manager or designee.
