The Pen

In 2018, Ian, Mitchell, Gary and Jeffrey had a bright idea that earned them \$625 each.

The award winners are employees with Real Estate Management. Their idea to replace failing proprietary light controllers with no licensing, software or firmware costs saved the County an estimated \$49,072. The new lighting system integrates into the existing automation system to provide one seamless interface.

So what's your bright idea? Send it in to the Employee Suggestion Award Program for consideration. The program awards up to \$2,500 cash to employees for ideas that improve productivity, efficiency, quality and/or cost effectiveness.

[View the Employee Suggestion Award web page](#) for guidelines and to complete the form.
